PENTATONIX "MAD WORLD"

MMI digs digging through the video files looking for something that sort of, you know, says something about something. And some days you find yourself in kinda of a easy like a Sunday morning Pentatonix mood. 30 years ago "Mad World" was a smashapalooza for Tears For Fears. Yet, we are neither crying or afraid to bring you this cool video. Click below:

Check out these videos hand-picked by our staff!

MANESKIN - "BEGGIN"

They met as teenagers in their Italian High School and simply rocked on from there, playing street corners, sock hops and any slot they could land. Things became interesting when they appeared on Italy's version of the show "X Factor" and then boom, out go the lights. "Beggin" is a surprise breakthrough mega smash that is conquering the world, teaching us to never choose one lane because here comes something from the street and left field. How do you say 'hit' in Italian? Click Here:

BNO\$ AND RICH BRIAN - "EDAMAME"

Ok, you have these 2 knights in shining armor...not. And they have strung together some dope beats and whack rhymes and then they strut around and do all sorts of crazy stuff. You put all that in a paper bag and shake the hell out of it, pour it out and dang, you can't quit singing it. So, if you're in the mood to be popped like a pea. Yeah, "edamame" well you came to the right place. Suit up and click here:

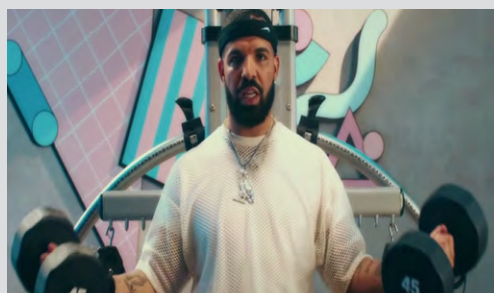

DOJA CAT - "NEED TO KNOW"

MMI scientists have been researching this question for years. "Is there sex on other planets"? Doja Cat has proven the theory and put the answer in our face (among other places). In this intergalactic love-fest, the space-babes got together for a trans-planet night out at an updated version of the Star Wars bar where there's more rotating than just the records of the turntable. And even though our beloved Doja has turned a little green (must be the turbulence), everybody is still having a good time in the space station. All you'll need to wear is a seat belt so buckle up and click here:

LIL NAS X - "JOLENE"

MMI sees diverse and interesting days for radio's music. With Nashville popping up all over Top 40 (Walker Hayes, Kane Brown, Miranda Lambert, Florida Georgia Line) it seems that the Formatic lines have become blurred a bit. Here's a wonderful multi-cultural stew for you: Lil Nas X from the BBC's Live Lounge covering Dolly Parton! Tally Ho, Y'all. Click here:

DRAKE FT. FUTURE AND YOUNG THUG - "WAY 2 SEXY"

So Drake says to Young Thug, "Like yo, Thug let's make a video and throwback some love to our London bros Right Said Fred. Thug sez, "Drake Dude, I'm in but we gotta have some gold stuff, drinks, cars, badass animation and maybe a chain saw". And so as "Way 2 Sexy" leap frogs up the research and airplay charts, we are given this fun-lovin' cinematic visual of the poetic lyrics. Party on. Click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 RETENTION is calculated by listener Tune-In and Tune-Out using trailing 6 weeks, weighting the most recent week double, and the five weeks prior equally.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
