CLOSEST RADIO COLLEAGUES: Skip Bishop (President, CO - CEO Studio2Bee Ent.)

CLOSEST LABEL COLLEAGUES: (Besides Skip) I've gotten to know everyone extremely well on my Voicemail!

ALL-TIME TOP 5 RADIO STATIONS: WNSH, New York's Country 94.7: The listeners in this city are electric and the most passionate fans I've met around the country. WSPK is where I got my start and a station I listened to for a long time. I learned so much from Scotty, Terry and Donny. WFLY: I remember opening the mic for the first time and loving that reverb. WPLJ always blew me away with how exciting it sounded, I used to listen to Scott and Todd never thinking I'd join them at some point in my career. KDWB was so much fun to listen to. And Hot 97 - there was nothing better than blasting Hot 97 on a hot summer day, headed to Yankee Stadium! Considering that you are programming in market number One, and known for its total diversity, how does that effect your playlist and programming? There was a huge gap for some time in NY. The city didn't grow up with a country radio station playing "I Like It I Love It," from Tim McGraw for 20 Years. That certainly changes the musical recipe. This town was starved for a country Radio station. The passion our listeners have for the music and the personalities is truly one-of-a-kind and they really drive our attitude.

HAVE YOU MODIFIED CONTENT BECAUSE OF COVID 19? The health and safety of our team has and remains our top priority. Therefore, as the city shut down, we immediately deployed a "remote" content strategy. Our commitment to our listeners remains the same as well. We seek to serve our community and be a companion day in and day out. Our listeners rely on us to provide comfort and companionship during turbulent times. We also needed to maintain our existing on-air relationship with frontline workers and first responders being our P1's. This has allowed us to push the boundaries and we've been able to try some things we might not have pre-COVID. Our talent has really impressed me with their ability to adapt, connect and deliver compelling content; all while genuinely being there for our audience, giving them a sense of inclusion and calm, has been remarkable.

FAVORITE CURRENT ARTISTS: Ryan Hurd, Hardy, Lindsay Ell, Mitchell Tenpenny, Ingrid Andress, Brothers Osborne, Morgan Wallen, Jordan Davis

ALL-TIME FAVORITE ARTISTS: Eric Church, Dave Matthews Band, Michael Buble, Sara Bareilles, Gavin DeGraw, John Mayer, The Goo Goo Dolls

GENERAL PROGRAMMING PHILOSOPHY: For me I focus on the relationship, at all fronts - station and audience, talent and audience, management and talent. I believe in the talent having ownership of their role and I encourage collaboration between them, I believe that's key.

I'D LIKE TO BE REMEMBERED FOR: I'd hope someone would say man, he really motivated and inspired me, he was someone who was very supportive and someone who appreciates "the good" in things.

A man with a full beard and a grey fedora-style hat is playing an acoustic guitar. He is wearing a light blue button-down shirt and jeans. The background is dark and out of focus, suggesting a studio or rehearsal space.

CHARTS/POWERS:

1 – Airplay is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 25 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase. . . 100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 – Retention is calculated by listener Tune-In and Tune-Out using trailing 6 weeks, weighting the most recent week double, and the five weeks prior equally.

3 – National Callout contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 – Streaming, Audio & Video contemplates trailing 14 days of all streaming. Songs with insufficient data are designated as PENDING. Pending songs do not affect the Total Performance Score in any way.

5 – Sales is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.
