Data and Analytics have become the new buzzwords in modern radio programming. How heavily do you rely on the research and data in making your programming decisions?

The more local market data we have available to us, the better it is to make decisions on song rotations. MMI is a great tool to add to the arsenal of research available today.

What is your general Programming Philosophy?

It has evolved over the years. Many things that we did in radio even a few years ago will not work anymore. Gen Z'ers today create content daily on their phones. Great morning show content and content all day are more important than ever for both on air and our social channels. Play the big hits longer, program your station at the pace your city dictates not record companies. At Cumulus we don't force music rotations or song adds. Pivot your programming philosophy when the industry or market needs you to pivot. Hire the best people possible for on air and digital positions.

What are you most proud of?

The fun work we are doing locally on Q99.7 and nationally with The Bert Show. Also, at Cumulus Media I am most proud with our nationwide "Project Shine" initiative. PROJECT SHINE believes that everyone should have the chance to make a difference. That's why they make it easy for good people and good causes to connect. You'll be amazed at the world of volunteer opportunities that exist in your area through VolunteerMatch – the largest online volunteer engagement network. I invite everyone to check out <https://www.cumulusmedia.com/shine/>

MMI SPOTLIGHT AJR – BANG

MMI likes to shine a hot light on a track that's showing big signs of entering the realm of major hit-dom! "Bang" sure checks the boxes! If you look at the "MMI Action" Section, you'll see that this ambitious bright smash is growing faster than its chart moves. Our composite indicates what consumers must already know: AJR is a bangarooni smashola! So, if you want to roll the dice on the roulette table and the upward rotation, Bang is a sure bet. Click Here!

BANG!

MILEY CYRUS - PRISONER FT. DUALIPA

What begins as a lovely truck ride whilst snacking on spiders turns into a bloodied lip throw-down with Miley and her trucking-buddy Dua Lipa. With the title and theme of this action-packed party being "Prisoner," the only thing locked up are the rules and regs of the road. You and everyone else are invited to their back of the bus, rolling on the floor, acrobatic Shindig... but no exes aloud! [Click Here!](#)

JOEL CORRY X MNEK - HEAD&HEART

Well, at MMI we believe you have to be on one side or the other, and that sometimes the grass is always greener, yin and yang, left or right brain, take your pick. Joel Corry x MNEK have created an up-tempo feel-good pop smash that covers both "Head and Heart". With this bubbly split-screen clip you can choose your side of the fence! [Click Here!](#)

BIG SEAN - WOLVES F./POST MALONE

Uh-Oh... who let the "Wolves" out? BIG SEAN makes room on stage for Post Malone, and if you follow the tracks up hill, you'll find this short furry animal is already Top 20 at Rhythm Radio. These bad boys are on the loose and have built a wolf pack of over 80 million global streams. If you want to -
sink your teeth into some 'StarTrek meets Twilight on Acid' effects, just [Click Here!](#)

HARRY STYLES - GOLDEN

Run, Harry, run! In "Golden" Styles puts us on the fast track in the bright and sunny spin shot on the Amalfi coast! Harry gives us an upbeat visual of how we all want to feel after months of quarantine! If you want a quick tour of some of Italy's greatest sights, get your running shoes on and hop in with Harry.

BILLIE EILISH - THEREFORE I AM

When you're young, way cool, unbelievably talented and riding the top of the awards lists and every other chart, you just might be Billie Eilish! And if you are Billie, your next goal could be having the entire mall to yourself. In this brilliant song and video, Eilish spells it out that she's nobody's but her own. Take the escalator up, grab a pretzel and [Click Here!](#)

CHARTS/POWERS:

- 1 – Airplay** is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase. . . 100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.
- 2 – Retention** is calculated by listener Tune-In and Tune-Out using trailing 6 weeks, weighting the most recent week double, and the five weeks prior equally.
- 3 – National Callout** contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.
- 4 – Streaming, Audio & Video** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated as PENDING. Pending songs do not affect the Total Performance Score in any way.
- 5 – Sales** is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.
