**BEST
OF
INTEL****2020****Pat Paxton**

Listeners not only want the best content- they demand it. They demand it to be where they are, on the devices they use, and they demand it to be easy, to be "click and play". That requires a blending of content with technology that can be unforgiving. But consumers can be unforgiving, too - so we have to get it right, every time.

Louie Diaz

Many things that we did in radio even a few years ago will not work anymore. Gen Z-ers create content daily on their phones. Great morning show content and all-day content are more important than ever for both on air and our social channels. Play the big hits longer, program your station at the pace your city dictates, not the record companies. The more local market data we have available to us, the better it is to make decisions on song rotations. MMI is a great tool to add to the arsenal of research available today.

**Mike McVay**

On air... I want a personality. Emphasis on PERSON! I want to hear who you are by what you say and how you say it. I want to be able to tell that you're prepared before you open the microphone, but yet sound as if you're ad-Libbing. I want to be entertained. Sound fun and informed. Be more than a voice.

John McMann

We've all become statisticians and Lawyers but in a good way. Smart decisions are based on good data and there's sooo much of it out there now. Two years ago, we were just starting to embrace utilizing local streaming metrics. And now it's a central part of the equation. It was an education process because change is hard, and it's opened everyone's eyes.

**Leslie Fram**

Mentors: first and foremost, Brian Philips who was Program Director at 99x. We had some glorious years together creating one of the best alternative stations in the country with Sean Demery, Steve Craig and team! Brian also brought me to CMT almost 10 years ago. He is a true visionary and one of the smartest, funniest most empathetic people you'll ever meet. There's so many great GM's over the years including the late Bill Phippen, Mark Reiner and Dan Halyburton. Skip Bishop and Butch Waugh have been true champions throughout my career!

CHARTS/POWERS:

- 1 – Airplay** is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase. . . 100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.
- 2 – Retention** is calculated by listener Tune-In and Tune-Out using trailing 6 weeks, weighting the most recent week double, and the five weeks prior equally.
- 3 – National Callout** contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.
- 4 – Streaming, Audio & Video** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated as PENDING. Pending songs do not affect the Total Performance Score in any way.
- 5 – Sales** is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.
