JEREMY RICE INTEL

CURRENT POSITION:

Top 40 Format Leader CMG,
WBLI Dir of
Branding + Programming

Top 40 Radio has deep roots in younger demographics. What can be done to attract and keep the kids as heavy radio users?

It's always a combination of Art and Science. I love research but when you see consumption on great new artists like The Kid Laroi and Olivia Rodrigo the time is NOW. CMG (Cox Media Group) embraces breaking New Music on our UP NEXT weekly one-hour program. In 2020 we broke "If The World Was Ending," "Coffee For Your Head," "Dakati," "ILY," and many other smash hits! Play the Hits, the BIG hits and be aggressive with the right records.

With Covid continuing to rage in the US, how can radio keep listeners longer during the fatigue? Embrace it or avoid it as content?

Avoiding local COVID and such news is a mistake. Yes Top 40 radio is a great escape from the craziness of the pandemic, but this is a great opportunity to be local. WBLI still does regular Long Island updates and they sound strong. Local radio, what a concept!

What stations influenced your career and programming philosophies?

I grew up listening to Casey Kasem and Rick Dees countdown shows in Rochester, NY. In the 80's/90's I would check out BBC Radio1, KIIS, CFNY, WXKS. I think the common theme is "tight is right," but you need to surprise listeners and get them excited somewhere along the way, if not you become wallpaper. I love restaurant analogies; you had better be sure that if it's my restaurant then you're gonna come back because the experience was memorable.

What content are you watching right now in your personal time?

Like most of the world I just finished Cobra Kai, the greatest show ever!! Lol – I still need to get to the Queens Gambit, and Wentworth is one of the BEST all-time shows, very underrated. Big sports person, waiting for Tiger to get back on the course, and love Cuse, Manchester City, Mets, Knicks, Islanders.

With folks continuing to work from home. How does this effect your drive time content and rotations?

Of course, with PPM we can track listening levels at any time of the day, morning and afternoon drive have historically been ultra-important dayparts, but Middays are massive. Syke and MJ in the Morning on WBLI stay on 'til 11am daily, I love this! Whether the listener is working at home or in their normal office building promotion of streaming on their smart device is key. Top 40 might be in the doldrums right now but our current rotations are very strong. Bieber, Ariana, Ed Sheeran, Dua Lipa, Billie Eilish, The Kid Laroi, Olivia Rodrigo, Harry Styles, The Weeknd. WBLI has had record P25-54 numbers and Top 40 is strong!

JP Saxe ft. Maren Morris – Line by Line

MMI has been following Canadian JP Saxe around for a bit. When this ridiculously awesome video landed in our in-box, we lit up like left-over Christmas trees. Plug in the amazing Maren Morris to the poetic masterpiece and the writing on the wall spells 'hit'. Aside from being cinematically stunning, this well-crafted ballad packs a romantic punch. This is a category-defying beauty that deserves your attention. To look at it closely and "Line by Line," click here!

JP Saxe

This week MMI takes a cinematic look at the Top 5 singles in SALES data

JUSTIN BIEBER - ANYONE

Yo, Adrian! Justin gets a little Rocky in his sales topping clip of "Anyone." This video packs a punch on the download button and has every other track on the ropes. If you look at the comparisons of the airplay to sales to stream charts this week, no one is putting up a fight -- Bieber Fever is back. In fact, we're not sure the temp will ever cool off. [Click Here!](#)

AJR - BANG

Quirky? Heck, yes. Mega hit? More so. When music fans vote with their dough, you know you have a smash. AJR's video of "Bang" gambles on a whacked out cast of characters rolling their dice and having the twisted time of their lives. This large hit record had some programmers scratching their heads early on, but the bets paid off as "Bang" explodes on both the sales and airplay charts. [Click Here!](#)

DUALIPA - LEVITATING

What makes fans pick the "buy button" will be debated for a billion years. But we do know that Dua Lipa's sales are "Levitating" with this trippy, Blessed Madonna, Missy and Molly inspired clip that somehow is as futuristic throw-back to pure dance. If you need a lift, here's the video pill you need to ingest. [To "Levitate" click here!](#)

JUSTIN BIEBER AND BENNY BLANCO - LONELY

This week, the top of the sales chart is just Justin's world and we get to visit. With three in the Top 5 it proves JB connects on all levels including active music buyers. But all the success in the world isn't everything. In this reflective, JB/Benny Blanco collaboration, we get to see what's on the other side of the fame and fortune mirror. [To see what "Lonely" looks like, click here!](#)

JUSTIN BIEBER FT. CHANCE THE RAPPER - HOLY

Another Justin Bell-Ringer is the powerful mini-movie clip of "Holy." This beloved monster track was set ablaze when we all needed a year end/holiday dose of love for one another, then emerged as a white-hot missile in 2021. The sales chart has become a powerful barometer for real long-lasting hit singles and "Holy" sure checks all the boxes. As it heads to the top of the MMI Airplay charts as well, check it out and click here!

CHARTS/POWERS:

- 1 – Airplay** is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase: 100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.
- 2 – Retention** is calculated by listener Tune-In and Tune-Out using trailing 6 weeks, weighting the most recent week double, and the five weeks prior equally.
- 3 – National Callout** contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.
- 4 – Streaming, Audio** contemplates trailing 14 days of aggregated on-demand audio streams. Songs with insufficient data are designated with an X. These songs do not affect the Total Performance Score in any way.
- 5 – Streaming, Video** contemplates trailing 14 days of aggregated on-demand video streams. Songs with insufficient data are designated with an X. These songs do not affect the Total Performance Score in any way.
- 6 – Sales** is based on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

Note: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
