VP BRAND
MANAGER

CHICAGO

B96 has a very clear brand. Musically aggressive, rhythmic and upbeat. As mainstream hit radio trends shift, how do you protect and emphasize the brand?

I always like to paint the picture of B96 being planet Earth in the solar system and every other style of music revolves around us. The moon, sun, stars and other planets. We pluck the biggest songs from all of these other objects (streaming etc.) and make sure we are playing the biggest mass appeal songs. It's all about timing. Sometimes we are early and sometimes we are not quite as early. B96 has had our best success as we moved mainstream years ago.

We know that the pandemic has greatly effected Drive-Time programming. How about middays and nights? Have there been necessary changes there as well?

There have been some listening changes this past year. However, I do remember when PPM started and the diary went way that middays were much bigger than we may have all thought. We still daypart the way we always have and I do believe that once everything opens up even more we will see similar listening patterns post-Covid.

You are invited to dinner at your favorite Chicago restaurant by your ideal dream dinner companion. Other than immediate family , who would that be, where would you go, what would you order and what would you discuss?

This already happened as I was invited to have dinner with John Elway years ago at the Italian Village in Chicago. He was in town for an auto dealer event and a friend let me tag along. I moved here in 1987 from Denver and was a huge Bronco fan all of my life so this was a dream come true! We had a bunch of drinks and I recited every play in a certain Superbowl that he orchestrated. He stood up fist pumped me and said "man, you know your football." It was a blast.

We all have professional heroes. What radio-masters influenced you and your programming skills?

There are several individuals that taught me the business, radio and records but the biggest influence

for me was 610 K-F-R-C! I was born in Fremont California and that radio station is the sole reason that I am in this business today. There was Dr. Don Rose, John Mack Flanagan, Marvelous Mark and even their late night jocks Don St. John and Rick Shaw were better than most in any other market in drive time. I remember so many things about that station. They would run there contest promo between the second and third song in the first quarter hour. The "Undercover Superstars" contest where you had to guess what superstar was behind the K, F, R and C was one of my favorites. Now I liked 64 KFI, KGW, WLS, KOMA and the New 10Q but KFRC was pure magic!

An Alien laser beam struck the Earth and all research is wiped out! No call-out, no retention scores, sales and streaming numbers have been globally eradicated. But you still have to work. How would you chose the music for your stations?

That's easy, I would just put into power all the songs my boys and their teammates are singing at the top of their lungs while driving to and from travel baseball games.

If a movie was made about your life, who would you want to play you?...and what would it be rated?

Joe Maddon because everyone says we look alike when I put on my glasses. It would be rated F for Funny!

KALIE SHORR

“AMY”

Kalie Shorr is a lot of things: under-exposed, mega-talented, under-appreciated and still (relatively) unknown. For now. But, if you listen to her latest re-tweaked album, *Open Book-Unabridged*, you'll pick up a volumn of musical stories that wind and weave. Is she alternative? Pop? Triple-A?... maybe a little Country? Yes she's all that and everything else. And she's awesome. Here's a stripped down bedroom clip with a little edgy get-even twist called "Amy." If you don't know Kalie Shorr, well you do now.

TONES AND I - "FLY AWAY"

The "Dance Monkey" maven re-materializes and is ready for you to set yourself free. Australian Toni Watson aka Tones and I employs one of the most powerful instruments in the history of hits: Hand-claps! This all-smiles Up With People-ish clip addresses escaping the situation by simply floating away. Don't try to tie Tones and I down. Just check the charts - "Fly Away" is only going up! Click here:

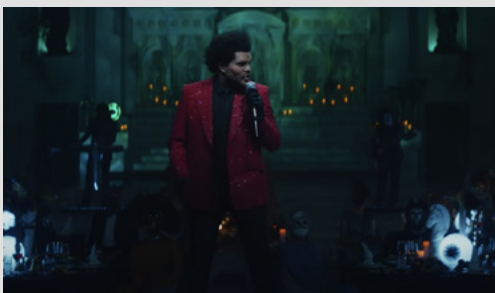

DRAKE - "WHAT'S NEXT"

Boom. Debut Top 10? Yep. Drake rips the roof off with his latest video featuring trains, planes and automobiles. With chart moves like this, if you ask, "What's Next," we can only guess the top of the charts. Click here:

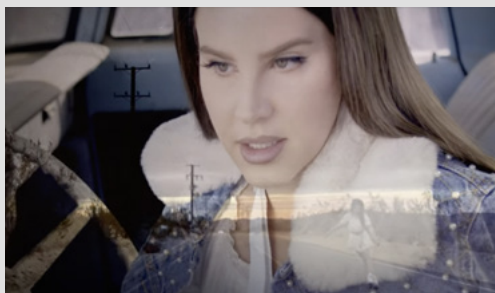

BEBE REXHA - "SACRIFICE" OFFICIAL MUSIC VIDEO

Well. Everything was going just great and then your girlfriend wants to drink your blood. Now that can spoil a great night out. Bebe and the gang all get together for a little corpuscle cocktail party at the hospital. Heck every room is an emergency room. This dance devilish track will really gets its fangs into you. Wanna play doctor? Just click here:

THE WEEKND - "SAVE YOUR TEARS"

Don't you just wish The Weeknd would last forever? Well. Looking at the numbers on "Save Your Tears" it looks like this track is bound for glory and is kicking into airplay hyper-drive. But in this artery clip our hero just can't seem to get the club crowd moving. Maybe they're not like, ah... real people? It's nothing that a good 'ol confetti suicide can't fix. If you want to pull the trigger on a great video, click here:

LANA DEL RAY - "WHITE DRESS"

MMI Trippy and Ethereal Alert: Lana's back and melancholy as ever as she skates us through the desert asking herself questions about life, love, loss, success, etc. Sound familiar? The artist has mastered the themes and creates as much art as music with her projects. The song and video makes one wonder exactly what transpired in Orlando at the "Men in Music" convention. If you need to float and think, put on a "White Dress" and click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 RETENTION is calculated by listener Tune-In and Tune-Out using trailing 6 weeks, weighting the most recent week double, and the five weeks prior equally.
