AMANDA HABROWSKI INTEL

CURRENT POSITION:

PROGRAM/MUSIC DIRECTOR
KBFF-FM
PORTLAND, OR
ALPHA MEDIA

You didn't find love on Flavor of Love 3, but you did find love in cheese. Which cheese best fits your personality and why?

The best cheese that fits my personality is Swiss. I wear my emotions on my sleeve and I'm a terrible liar to where people can see right through me. I'm not edgy because I prefer to savor the best parts of life and people admire me for that.

You are in charge of putting the acts together for "AMANDAPALLOUZA!" You need to mash 9 artists up from 3 formats, Top 40-hip hop, Alternative & Country (yeaaaaabuddy). What's the line-up and can you get us a back-stage pass?

I got you on backstage passes NO problem! Get ready for the concert of a lifetime with special guest appearances from Dua Lipa, Lil Nas X, Ed Sheeran, Glass Animals, Borns, Weezer, Kane Brown, Walker Hayes, and Sam Hunt (hubba hubba)!

If you had to use 3 adjectives to describe your programming style, what would those 3 words be? How do you compete against local market competitors and the digital world?

3 adjectives to describe my programming style would be custom, authentic, and timely. I use all three of these adjectives when it comes to competing against local market competitors and the digital world. Being local up against the big dogs who are not and most often syndicated, we have the upper hand of being custom with our imaging, music library, social content, etc. We also have the ability to adjust our playlists in real-time should local or global news break in addition to new music releases to be the first to inform our audience.

If you could turn into an animal, what would it be? How do the characteristics of this animal relate to your personality and your job?

I would definitely turn into a cat as the characteristics of this animal apply to my personality 100% both in and out of the workplace that some people may find endearing and others off-putting. I can be inquisitive, friendly, playful, active, loving, and independent. Shout out to my cat, Smoke Man, who is all of the above!

Your hero (anyone.... living or not so much) is coming to your house for dinner. Who is it and what are you preparing?

(Here's the catch...you have to be able to prepare it). The hero coming to my house for dinner would be Howard Stern for being the bold, bad-ass he is and for inspiring me to get into this crazy industry. I would be preparing my awesome air-fryer Chicken Parmesan with extra parmesan cheese of course. Throw in some Pinot Noir on the side and some air-fryer apple hand pies for dessert.

Growing up, what radio stations and air personalities inspired and influenced you and your current programming philosophies?

Growing up in Detroit, my go tos were WKQI and WJLB. Beau Daniels, Mojo, Spike, and Bushman all come to mind as air personalities that all played a part in who I am today in this industry. They've all inspired me to continue to work hard because, well, Detroit Hustles Harder. I still keep my studio lights the same as Beau did - nice and dim to set the vibe for the entire show. I also have to shout out Phil Becker for the programming philosophies. He and I have worked together for 10 years now and have had way more wins than losses. I couldn't be more thankful for his mentorship.

Words of wisdom you would give to your younger self 15 years ago?

Continue to learn and grow from your mistakes. Know your worth and never let the negative comments, calls, or social posts get you down. Speak up when you're not happy or have questions about anything you're unsure of and never, ever, give up.

The A.S.A.P Study

ACTIONABLE: A 10-minute interview is flexible but demands knowing the possible actions that might be taken.

SPEEDY: A 10-minute interview means the study gets into the field faster. A 300-person sample means that it will get out of the field faster. In the top 40 markets it's four weeks or less from approved questionnaire to presentation.

AFFORDABLE: An all-in cost of \$9500 minimizes risk and helps ensure a return on every budget dollar.

PERCEPTUAL STUDY: Quantitative research with scalable results from a well-designed, carefully-screened sample.

CHOOSE ONE FROM THREE STUDY DESIGNS:

Morning shows: What kind of show is in demand? Are there image leaders? What are the key audience benefits? Which images are contestable? Which features have gravity? Who are the hot personalities?

Comprehensive station health checkup: Are you optimally aligned among competitors? Strongest images? Most valuable images? Is your music dialed-in? Biggest threats? Easiest sources of new PI's?

Roadmap for music: The tightened interview allows testing of appeal for up to fifteen music styles, along with image questions.

Sources included Amazon, Apple, You Tube, Google Play, Napster, Pandora, and Slacker, combined to provide you a pinpoint look at the top streaming songs.

LAUREN SPENCER-SMITH - "FINGERS CROSSED"

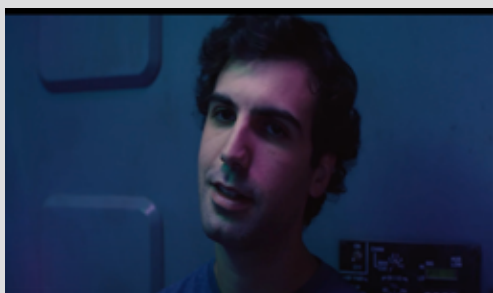

Wow. Say hello to 2022, a new mega-star, a record shattering smash and music biz's new model. Lauren Spencer-Smith is a Canadian teenager who posted a snippet of this firebomb on TikTok and now it's the fastest moving track on the planet. With a boost from American Idol, the phenomenon singer songwriter did it by thumbing her way through social media with a white-hot track that's simply undeniable.

What a magnificent song, vocal, production and tribute to artist's new path to glory. Click here:

ALESSO, KATY PERRY - "WHEN I'M GONE"

This video's debut was arguably the most exciting moment in the first half of last week's College Football Championship game. With Sweden's Uber-mega hit monster Alesso getting top billing, he and longtime collaborator Katy Perry deliver an undeniable, up-tempo letter perfect power rotation bound smasherino. Click here:

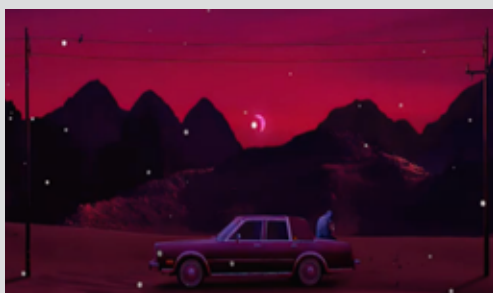

THE WALTERS - "I LOVE YOU SO"

What a story: The indie Chicago band released "I Love You So" 7 years ago then promptly disbanded. Their quirky video goes to TikTok and 200 million Spotify streams and a million views later... they're back! This spacey crash-landing video seems to be a refueled career's launchpad. CHRIS BROWN - "IFFY"

MMI Safety Warning: Do NOT try this at home. Dancing on top of speeding cars can lead to injury or spilled beer. Chris Brown shakes it up with some crazy kids, transformers, bad-ass auto-acrobatics and a dang danceable track. Click here:

SENA KANA - "UNDISPUTED"

Tokyo Pop Darling Sena Kana is a frequent studio partner with Poo Bear and Wiz Khalifa. She's scored some major digital action globally with a couple or three chart climbers. With this track Kana kicks off a U.S. career which will soon be "Undisputed". Click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is based on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
