LATTO SUNSHINE/BIG ENERGY ON THE TONIGHT SHOW

How does one follow a big number one smasherino? One goes on television and rolls out another big smash in a medley. Latto is all razzle and dazzle in this mash-up clip that we had to stay up waaaayyy late to see on the boob tube. From the Tonight Show with Jimmy Fallon, Latto shines brightly with "Sunshine" then drops most of the costume for one more blast of "Big Energy."

Check out these videos hand-picked by our staff!

LADY GAGA - "HOLD MY HAND" (FROM 'TOP GUN:MAVERICK')

Good Lord, someone left Gaga's piano right slap dab in the middle of the runway. It sure didn't stop her from hammering out a mega passionate performance of "Hold My Hand" which she says is "a love letter to the world during and after a hard time". Up here in the MMI flight control tower, we're picking up a barrage of airplay blips originating from radio antennas across the country. A powerful song delivered by the biggest of stars.....what's your vector, Victor? Hold this and click here:

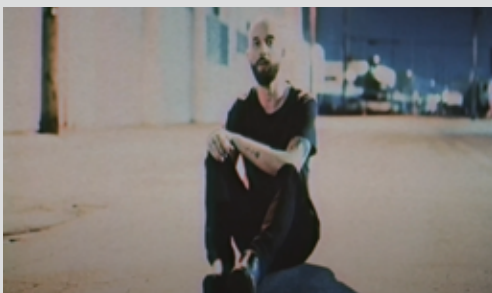

PINKPANTHERESS FT. WILLOW - "WHERE ARE YOU"

Why don't we get invited to these parties? University of London Grad PinkPantheress has already scored numerous viral hits with songwriters, vocals and a production cred to boot. The sleek feliness moves kitty-like around the club to a dazzling alt-beat that sounds like a trippy night out. Ms. Pink get's a visit from MMI fave Willow in this swirling mass of midnight cat walking. Click Here:

JUSTIN BEIBER FT. DON TOLIVER - "HONEST"

No really, this IS Justin Bieber and Don Toliver in this video, "Honest". No, we're saying that's the song title, really. Promise. These 2 snow bunnies take to the powder to sling some sexy beats in the drifts. You have your snowmobiles, campfires, orange weatherwear, lots of fun and looks like Brother Toliver even brought a little something to smoke. Click here:

KHALID - "SKYLINE"

MMI Happiness Alert: This may be the feel-good theme song of the summer with it's prancing beats and bouncy, happy, shiny lyrics. The video is like a big ol visual prozac-full of picnics, pink clad dancers and flowers. With that said, the MMI stats dept. is a bit stumped on the math trying to equate if a hot-air balloon can indeed support Khalid's floating car. We'll get back to you on that after you click here:

MAGGIE ROGERS - "THAT'S WHERE I AM"

MMI Artist We Like Alert: We so dig Maggie Rogers. If you don't know her, go swim around in her neo-folksie-alt-poppish-well written and self produced-bad-ass tracks. "That's Where I Am" grabs hold of the powerful female passion and angst that became famous on "Jagged Little Pill". Plus, this clip has some NYC surprises to keep your heads talking. Click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
