#### CURRENT POSITION:

PRESIDENT THE RANDY LANE COMPANY

You are known to be one of the planet Earth's most prominent radio Morning Show consultants and clearly one of the most handsome. So...Let's play a game: Imagine there are no obvious economic restrictions. Is it a good idea to put morning show caliber entertainment in all departs?

Yes, personalities and companionship are radio's greatest assets that set us apart from music streaming services. We're seeing afternoon team shows thrive all over the country at stations like KS95 Minneapolis with Staci & Hutch, Alice in Denver with Slacker & Steve, and Alt 987 LA with Booker and Stryker.

Now Radio Edmonton is showing us the way with personalities in all dayparts. They are number one in women and men 25-54! The same concept is going on stations all over Canada. Since companionship is one of the main reasons people use radio, I highly recommend stations in the US take this approach.

#### In your creative mind, how would the approach of each key depart differ?

This idea works in afternoon drive with just a bit more music than mornings. In all other dayparts, still play at least twelve songs per hour (depending on spot load) but have personalities entertaining in short bursts consistently throughout every hour. Like Now in Edmonton, it's an excellent idea to consistently connect with listeners via phone, text, and online with story topics.

Now let's add back in the elephant in the room: Is this fantasy economically feasible and if so are there creative ways to afford around the clock personalties?

Depending on your budget, a winning formula would be a mix of local, regional, and national personalities. Regionally syndicated personalities are effective because the culture is similar to yours and they're less expensive than nationally syndicated shows.

You don't strike us as the hillbilly type yet you recently left LA and moved to Tennesee. What the heck is that about?

We moved to Tennessee to be near you, Butch Waugh, and Hank Jr.! Seriously, JoAnn and I both have family here who need us. We plan on dividing our time between Tennessee and California.

#### Should radio be playing more new music?

Yes, it would help radio to stay relevant. Stop playing it so safe, be selective and set up new music with more fanfare.

#### Tell us one book, one film and one album we should go read/see/listen to right now?

Hook Point: How to Stand Out in a 3-Second World by Brandan Kane will help radio stations and podcasters attract and maintain the attention of today's impatient audience. Kane has assisted celebrities like Taylor Swift and Rhianna build brand strategies.

All Creatures Great and Small is a warm, vulnerable and funny PBS series based on the James Herriot book. An interesting fact is that Harriot did not start to write the stories until he retired.

Joni Mitchell's remixed early albums on vinyl are fantastic. *The Reprise Albums (1968-1971)*. I'm looking forward to the release of The Asylum Albums (1972-1975).

## Growing up, who isn the one radio personality that influenced you the most that inspired you towards your career?

My brother Ron Lane inspired me in radio, sports, college, and life. He has been an air personality, owner, and manager of multiple radio stations in Tennessee, Illinois, Kentucky and Alabama. He not only served several communities with his radio stations, but he also served as mayor of Big Sandy, TN for twenty years.

## NOAH CYRUS ON DECK AT ROLLING STONE

Miley may muster more musical ink but sister Noah is a star in her own right. She has a more ethereal, artsy feel to her singing-songwriting-performing and all this is evident in the clip below. The baby of the Cyrus bunch delivers a dreamy sweet mini concert for the good people at Rolling Stone magazine and gives us a glimpse at her upcoming LP, Ready To Go. Click here:

Check out these videos hand-picked by our staff!

#### TXT FT. IANN DIOR- "VALLEY OF LIES"

Ok, cool. So, as the tongues are wagging and bets are being placed, Jimmy The Greek (although dead) says TXT might just fill the heartbreaking void created by BTS and their notorious pause button. Here with Mr. Mood himself, golden-boy lann Dior, and Tomorrow X Together (TXT) bring us a happy song about depression. Click here:

Video

## BAD BUNNY FT. CHENCHO CORLEONE - "ME PORTO BONITO"

When the Bunny appears we hop to attention. The act has clearly gone from cult status to global superstardom and has driven up the stock of forging language tutoring apps. With the help of Chencho Corleone, Mr. BB washes a car, does a bit of yard work, and rocks a party to which (again) we were not invited. Click here:

#### **DIXIE - "SOMEONE TO BLAME"**

The definition of "poetic license" is when you rhyme "Blame" and "Me" and get away with it because it works. Dixie D'Amelio (now shortened to Dixie) brings us an upbeat view of self-loathing in "Someone To Blame". The TikTokking, pop-rocking phenom has cinematically captured a melodic and brightly colored ode to "screw it, it's probably me". Take a prozac and click here:

#### **RUSS FT. ED SHEERAN - "ARE YOU ENTERTAINED"**

What is the significance of the number 14? That's how many albums Russ has released. The prolific Jersey born rapper, singer, songwriter, producer moved South at an early age and became a force in the Atlanta Hip-Hop scene. Here with "Are You Entertained", he joins up with Red Headed Ed and creates a salute to living the high-life. Click here:

#### PANIC! AT THE DISCO - "MIDDLE OF A BREAKUP"

SiriusHits-1 is pounding this track like a bass drum at a high school football half-time show! And speaking of pounding, this is a brilliant salute to the great yet small niche intersections in life. Panic! never fails to bring artistic musical chaos and in this one, the heat is high. If you're fond of make-up sex in the "Middle of a Breakup", you'll fond of this video. Click here:

#### **CHARTS/POWERS:**

- **1 AIRPLAY** is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.
- **2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE** predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.
- **3 NATIONAL CALLOUT** contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.
- **4 STREAMING, AUDIO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.
- **5 STREAMING, VIDEO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.
- **6 SALES** is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

#### **HOT ZONE / DEVELOPING**

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

#### RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

#### **ACTION**

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

### STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
