HOWARD STERN ASKS THE TOUGH QUESTIONS

Howard is simply an amazing interviewer. His scud missiles feel like casual chit-chat and his terrible swift sword can sound like a pat on the head. In this clip, The King of All Media puts actors on the spot regarding career boo-boos that potentially cost them mega millions. Tune in and click here:

Check out these videos hand-picked by our staff!

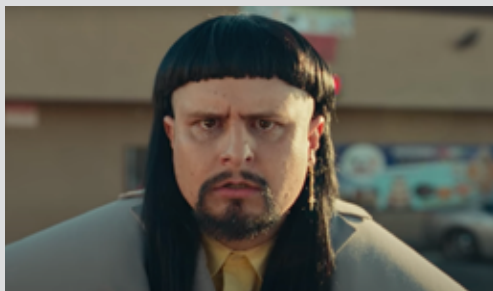

RIHANNA - "LIFT ME UP"

The first single from the upcoming Black Panther: Wakanda Forever soundtrack is officially a dang doozy. Rihanna's return is another star in her superstar, designer, entrepreneur, and philanthropist crown. The atmospheric and emotional video is a precursor to one of the most anticipated films in years. Click here:

MARSHMELLOW, JUICE WRLD - "BYE BYE"

Like we know that last week was Halloween but this is kinda creepy. JW and MM team up for some video world Stephen King-ish tale of this poor kid who gets all sucked into his screen life and things sure ain't all fun and games. The techno effects are cool and the message is scary yet great. Oh, and the track looks like a smash. Drop a quarter in the slot, and click here:

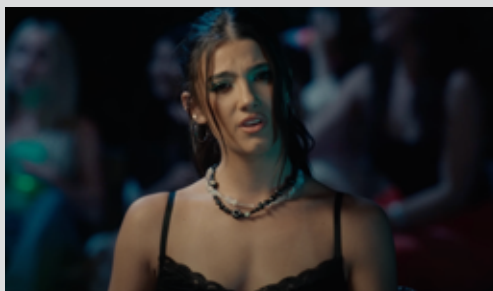

OLIVER TREE AND ROBIN SCHULZ - "MISS YOU"

It's Official: Oliver Tree is a trip. The California artist, writer, producer, comedian, actor, and DJ has kinda outdone himself with this video ode to a convenience store robbery, creepy clown dances, pickle smashing good fun. Tree branches out with German megastar Producer/DJ Robin Schulz who is still trying to figure out what he got himself into. Click here.

MEGHAN TRAINOR - "MADE YOU LOOK"

If you're looking for a room full of Meghan fans, come to the 4th and 5th floors of The MMI World HQ. We voted her the coolest. She can power out vocals and has style for a zillion breezy days and hot nights. She can shake rattle and hum with the best. Her videos are as good as it gets and her talent is non-fittable in most 18-wheelers. SiriusHlts 1 is pounding this like a 3-run homer and the data pins are making the sonar look like a Walmart Christmas tree. Wanna see? See, we made you look! Click here:

CHARLI D'AMELIO - "IF YOU ASK ME TO"

MMI Crazy New World Alert: Charli D'Amelio is a Connecticut-born, bedroom Tik Tok content maker with zillions of followers that have propelled her music career into the front row of streams and airplay. So much for old-school A&R and hanging out looking for the next shining star, right? The track is quick, strong, and headed north in chart position. The story is sorta a reverse "Jesse's Girl" as Charli is hurting bad with the "I wants and needs" kinda love for somebody else's squeeze. Click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
