# MMI WEEK AT A GLANCE

**JOHN SHOMBY**

Partner, Radio's Fresh Eyes, LLC | EVP/GM Studio2Bee Entertainment  
Sr. Chart/Data Analyst MMI Publications

Two big moves coming from artists on different sides of the pop music spectrum. East coast rapper, L'il Uzi Vert, jumps 5 spots to #12 on the overall chart this week with "Just Wanna Rock". The growth comes primarily from the streaming side with the song ranking 3rd in video and 5th in audio. The panel is still lagging behind on this one even though the airplay rank rises 3 spots this week to 28th.

The cleverly named Pink Pantheress registers the second biggest move knocking on the top 20 door at #21 up from 26 last week. "Boy's a Liar" is the second most audio-streamed song of the week and up to 13th in video streams. The panel is beginning to take notice with the airplay rank increasing to 32nd from #39.

Taylor Swift now has two tunes in the top 20 with "Lavender Haze" breaking in at #19 this week. This one is just starting to grow with decent top 20 sales and audio streams. More to come with this one. Meanwhile, her "Ant-Hero" is still in the top 10 dropping one spot to 8th with consistency in sales and audio streams both ranked in the top 10.

Beyonce's "Cuff It" is hanging in there with third best move of the week up to 7th from #10. This is driven mostly from sales (4th) and audio streaming (8th). The lady still has it and the panel is behind this one.

Miguel's "Sure Thing" drops only one spot to 16th overall. This is only the second week on this chart for the song having solid audio streaming at 9th and an impressive callout at #6. With the strength of those two categories, it's a clear indication that the audience is into this one! The panel is getting there with a move up 7 spots to 31 in airplay rank.

The top 5 has one return entry as David Guetta and Bebe Rexha's "I'm Good (Blue)" moves back up one spot to #5. "Creepin'", from Metro Boomin with The Weekend and 21 Savage, drops one spot to 4th but is still the #1 callout and ranked 4th in audio streams. This song will not go away. One of the hottest artists of the year, so far, SZA and her smash "Kill Bill" remains at #3 and continues to be the most audio streamed song and is 6th in video streams. Holding at #2, another one that has had incredible staying power, Sam Smith and Kim Petras' "Unholy" with top 5 numbers in sales, video streams and callout. Back at number one for a second straight week, AND after only 6 weeks on the chart, is Miley Cyrus' "Flowers". The number one seller, number two in video streams and callout and number three in audio streams, this may wind up being Miley's signature song of her career.

Songs that are performing higher than most with all of the heaviest increases in all MMI Components.

# ***THE CALLOUT DIAGNOSIS HOTAC***

**MIKE McVAY**

President  
McVay Media Consulting

We called it. Miley Cyrus and "Flowers" is up to #4 on the Hot AC chart according to research. The song is performing strongly and showing the strength to hit #1. It's the 3rd highest testing song with both the younger (25-32) and upper end of the female demo (33-39) at the high 60s in Total Positive. The former child star could be on the way to her biggest hit yet.

Miley's song is going to have to wait a few weeks before being able to proclaim the title of "The Best Researching Song of the Week." There's a logjam at the top of the chart sits with Sia's song "Unstoppable" at #1. The song has the highest overall positive score. It shows single digit burn. Sia's looking at her biggest hit ever.

Metro Boomin has the highest testing song among women 33-39 with a 75.4 Total Positive. No burn to speak off. The vocals on this song are an all-star cast. Metro Boomin features The Weeknd and 21 Savage on "Creepin." The feel from this song is really enjoyable. It has a rhythm that will sound good next to just about any other song on your station.

There's something happening with Meghan Trainor's song "Made You Look." This song is showing a slow rise in burn with the younger side of the sample. It's testing in the Top-20. It has a stronger story to tell on the upper end. Too soon to be concerned that the song isn't working. It has a stronger "Like" score than a "Favorite" score. Familiarity breed Favorites. It needs more time to connect. The song is unique. Unique always takes time to catch-on.

My song to listen to and watch ... P!NK "Never Not Gonna Dance Again." A good base is growing for the song. It's a great story song. Well written. Everything she sings sounds special. The score for Favorite is growing. Add to all of that ... how do you not love any singer that combines pop music and Cirque Du Soleil? C'mon now.

# GRACIE ABRAMS

## ON JIMMY KIMMEL LIVE

MMI has been waving the Gracie Flag for a bit. Soooo, 'a friend' asked us to watch Friday's Jimmy Kimmel Live to hear and see (that's a TV thing) Gracie perform "I Know It Won't Work". So we asked what time the show airs and thought that too.. 'won't work". So we took naps, made some coffee, took a walk and a shower and stayed up to watch the stellar performance. We're glad we did and so will you if you click here:

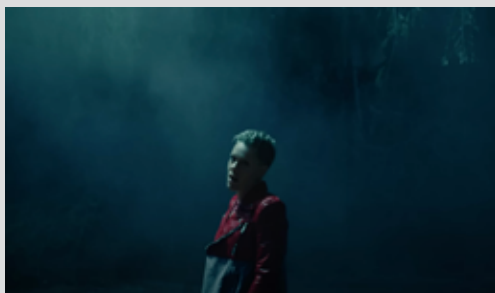

Check out these videos hand-picked by our staff!

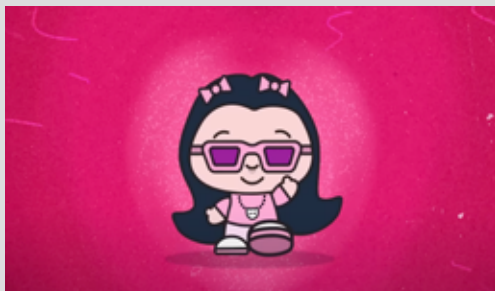

### BIBI - "VENGEANCE"

MMI Uh-Oh Whoospie Alert: Don't piss off BIBI. Not a good idea at all. And...This amazing video may have some really bad language but we're not sure because most of it's in Korean. This makes sense because that's where BIBI's from. See..this is all starting to tie together. Bad-ass BIBI has a global deal with the very hot 88Rising team and if I were them I'd do my best to get this smash up the chart because (as mentioned earlier and depicted in said aforementioned video) you DO NOT want to piss off BIBI. Click here:

### P!NK - "TRUSTFALL"

The high-wire-death-defying baddest of all has just released (with a magnificent wave of furious grandeur) her new album, TrustFall. The LP is a collection of danceable rhythmic therapy sessions for those of us who are worn down from heartbreak, global pandemics, pressures, wars, and spy-balloons. It's a "let it go and live" lesson planner with a bad and beautiful backbeat. If you need to feel better about something...anything, stream Trustfall from the press play button to the end. But first, click here:

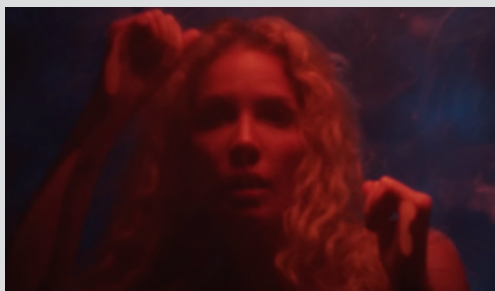

### MAE STEPHENS - "IF WE EVER BROKE UP"

At MMI we are a data and research engine and rely on science and accurate interpretation of numbers. Henceforth we avoid language such as "adorable, cute as heck, a toe-tapper, catchy, sweet as pie, the bees knees, ditty, tackle box full of hooks, etc". All of which apply to this video from English TikTokker Mae Stephens. You're welcome and click here:

### LINKIN PARK - "LOST"

20 years later, Linkin Park still sounds new as they bring back a re-tweaked "Lost", that was originally recorded for the 2003 album Meteora. The way cool anime video treatment brings the track to life and solves the sad conundrum of addressing the loss of lead singer Chester Bennington in 2017. The early chart success of this track shows that avid Linkin fans never left the park. Click here:

### HALSEY - "DIE 4 ME"

We love Halsey. Pure Pop with splashy art and just enough edge to keep it cool. This video is a perfect picture of the magic she whips up. A pane of glass, some steam, some erotic choreography, little to no wardrobe, and an amazingly hot track. Boom. Click here:

## CHARTS/POWERS:

**1 AIRPLAY** is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

**2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE** predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

**3 NATIONAL CALLOUT** contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

**4 STREAMING, AUDIO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

**5 STREAMING, VIDEO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

**6 SALES** is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

## HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

## RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

## ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

## STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

*NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.*
