MMI WEEK AT A GLANCE

Is it possible for country superstar Morgan Wallen to have a pop and country hit at the same time? If his latest "Last Night" keeps tracking the way it has, he has a shot at having this happen. It moves up to 17 on the overall power chart from 20 last week with still no callout numbers as of yet. The song is driven totally by two very important factors – sales, where it ranks 2nd and audio streams where it places 3rd. After only three weeks, this is an excellent start moving up 4 spots to 34th in airplay. We'll see how the panel treats this as the weeks progress.

Miguel's "Sure Thing" continues to grow. It's made it to the top 10 in streams (10th video and 8th audio) and has remained in the top 10 in callout at #7. The panel appears to be noticing the early success with a decent airplay rank of 26 (from 31 last week).

One song that has really snuck up on us is "Calm Down" from Rema and Selena Gomez rising to 7th overall from #10 last week. Video streams appear to be the story ranking 5th although the song is also top 15 in sales, audio streams and callout. One more for the panel to make a priority if it isn't already.

"Boy's a Liar" from Pink Pantheress is getting the streams which gets into the top 20 at 20 from 21 last week. Ranking 8th in video and 6th in audio streams, more stations on the panel are believing as the airplay rank rises to 27th from 32 last week. This one has been a fast starter and the panel is getting the idea.

One new entry into the top 5 is what may be the next big thing in Coi Leray's "Players" sitting at #5 all the way up from 9th last week. Being 6th in sales, video streams and callout shows that the song has a well-rounded foundation needed to be a CHR hit. The airplay rank is now up to 16 so it's safe to say that the panel is jumping on board.

Holding at #4 is the 6-time callout champion, "Creepin" from Metro Boomin' featuring The Weekend and 21 Savage. Still in the third position is SZA's "Kill Bill", a streaming giant ranked 3rd in video and 2nd in audio. With the callout numbers gradually increasing (11th this week), this one has gotten the full attention of the panel.

Remaining in the 2nd spot is "Unholy" from Sam Smith and Kim Petras. It's still a solid heavy rotation hit across the board ranking 4th in sales, 7th in video streams, 10th with audio streams and 4th in callout. Once again at top for the second straight week is Miley Cyrus' "Flowers". It's the number one seller, 2nd in video streams, 4th in audio streaming and 2nd in callout. A bona fide hit!!!

Are there any songs being "left on the table" by the panel? One obvious one that has a consistent callout story – Drake and 21 Savage's "Rich Flex". It's been in the top 10 for callout for the past 4 weeks and is ranked 8th in audio streams yet it still can't crack the top 20. The airplay rank has dropped to 37 from #34 last week. Just looking at the pure numbers, one has to wonder why this hasn't grown faster. Let's see if the panel notices this in the next week or two.

Songs that are performing higher than most with all of the heaviest increases in all MMI Components.

THE CALLOUT DIAGNOSIS HOTAC

MIKE McVAY

President
McVay Media Consulting

The #1 researching song this week? It's Metro Boomin's song "Creepin'." The tune continues to be a big winner with both women 33-39 and women 25-32. No burn. Metro Boomin features The Weeknd and 21 Savage on the track. That's like putting LeBron James, Luka Doncic and Donovan Mitchell together on the same NBA team. *The new Big 3.*

Miley Cyrus and "Flowers" continues to be the big one to watch at Hot AC. The song is #1 at CHR and that's where most AC smashes originate. I'm not saying that Hot AC hasn't fostered bigger hits without them first winning at CHR ... but I am saying that Miley's #2 Total Positive with women 25-32 puts it in a strong position to continue to grow.

"I'm Good (Blue)" by David Guetta and Bebe Rexha is starting to show a slowdown as the burn score has just crossed into double digits. The song still tests strong enough to be in the Power category and has a 95% familiarity score. The burn score is something to watch, but not to be alarmed by ... yet. Any music that has as addicting an *ear worm* as this one will burn more quickly than a less familiar song.

Meghan Trainor's song "Made You Look" continues to show a slow rise in burn with the younger side of the sample. It's now at 14.3% burn on the young end of the demo. Half that number with the upper end where it's at 7.8% burn. Keep an eye on it. It's success for your station depends on your target demo.

The song that's attracting a lot of attention is "Bloody Mary" by Lady Gaga. The song was first released in 2011 on Gaga's second LP "Born This Way." It's receiving massive exposure on social media. Lady Gaga is seen on TikTok reacting to hearing the song on the radio. Yep ... she heard it on the radio. You can see 102.7 KIIS FM on the screen in her car. The title is already almost 80% familiar. Its Total Positive score isn't strong ... yet. This one is different enough that it will be memorable. A song to track.

REMEMBERING DAVID LINDLEY

This week the world lost the masterful (and quirky) mega musician David Lindley. There were few stringed instruments left unconquered: guitar, dobro, banjo, sitar, upright and electric bass. With all his accomplishments Lindley was best known for his legendary falsetto performance on Jackson Browne's 1977 LP "Running on Empty" where David warbled his way through "Stay". For an acoustic version, click here:

Check out these videos hand-picked by our staff!

LIL UZI VERT - "JUST WANNA ROCK"

MMI Things We Love About Lil Uzi And This Video Alert: A. He's wearing a Sade T-Shirt. Way cool. B. The video shoot had no permit and the 5-0 did in fact roll in. C. Mr. Vert escapes in a flying armored truck..... dude. Duuuuudde. Click here:

BEABADOOBEE - "GLUE SONG"

Born in the Philippines and raised in London.... Beabadoobee made this "home-movie-ish" video in her native land. There are plenty of warm and fuzzy (yet grainy) shots of Ms. Doobee cooking with her Granny and playing with the neighbors ...and then she sticks a friggin' cigarette in her mouth!!! Sheeeesh. Feels like a springtime smash. Click here:

MILEY CYRUS - "WE CAN'T STOP"

MMI Flashback Monday Alert: Weird that it's been almost a decade since this video made us all say "ah...wut"? And we knew Lil Hannah Montana had crossed the adult bridge into a new level of artistry. Now with "Flowers" blooming all over the top of the charts, we thought it's time to reminisce with a golden platter that mattered. Click here:

FALL OUT BOY - "LOVE FROM THE OTHER SIDE"

MMI Full Disclosure/Transparency Alert: We love Fall Out Boy. Who doesn't? Hands? We thought so. Stroll down the hall to the Alt control room and you'll find this one on top. Tip: Sounds best at 11. Twist the knob to the right and click here:

DEAN LEWIS - "HOW DO I SAY GOODBYE"

In his home of Australia, Dean Lewis is like, way big. Superstar big. Platinum, number ones, sold-out tours big. Like, big big. Dean's ode to his Dad is a certified tear-jerker and the accompanying video is all the real deal. Grab a tissue and click away:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is based on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
