MMI WEEK AT A GLANCE

JOHN SHOMBY

Partner, Radio's Fresh Eyes, LLC | EVP/GM Studio2Bee Entertainment
Sr. Chart/Data Analyst MMI Publications

Look out! It appears Miley Cyrus may have another one. Her "Flowers" sits at number for a 4th consecutive week and now, her very danceable "River" is knocking on the door of the top 20 moving from 40 last week to 21 this week. Sales and audio streams are driving it at this point ranking 16th and 12th, respectively. The panel is also starting to pick up on it as it rises to #25 from 28th last week, in airplay.

Another top lady in the format, Nicki Minaj and her follow-up to her smash "Super Freaky Girl" is already making some noise in only its 2nd week. "Red Ruby Da Sleeze" (she gets the award for most creative titles!) debuts in the top 20 overall at #19. This song is already a sales monster starting out at #3 already and with audio streams at #11 plus callout at #20, this one is also off to an amazing start. Airplay is ranked 41st for now but I can see the panel jumping on this. Definite reaction song.

Speaking of reaction songs, another lady making some waves is British Tik Tok discovery, Pink Pantheress, with her "Boy's a Liar". This one jumps to 13th from #19 last week as a very hot streaming song ranking 2nd in both audio and video streams along with a rise to 12th in callout after only 5 weeks on the Mediabase chart. The panel is also noticing as the airplay position rises from 22nd to 17th.

It's very rare that CHR gets a country crossover but Morgan Wallen's "Last Night" is definitely making its statement. The tune sits at #11 from 14th last week driven by #2 in sales plus being the top audio streamer in the format. The fact that it's already at #23 in airplay tells us that a good portion of the panel is agreeing with that crossover thing.

Miguel's "Sure Thing" looks more and more like one as it makes the one-point rise to 7th this week after only 5 weeks on the chart. More stations are jumping on board with the song ranked at #15 in airplay.

The top 5 remains the same but with songs changing places. The Weekend's 30-week masterpiece, "Die For You", drops two spots to 5th driven by a #5 rank in audio streams and 3rd in callout. This one still has some life left in it. Hanging at #4 again this week is Sam Smith and Kim Petras "Unholy". After 25 weeks on the chart, it's slowing down just a tad at #6 in callout, 8th in video streams and 7th in sales. Rising two positions to #3 is Rema and Selena Gomez' "Calm Down" showing strength in sales at #4 and streaming – 5th with video and 8th audio.

Remaining in the second slot again this week, SZA's "Kill Bill" is making points with its streaming and callout combo – 6th video, 3rd audio and 5th in callout. As mentioned earlier, number one for week #4 is Miley Cyrus' "Flowers". Once again, it's the #1 seller plus top 5 in streams (3rd and 4th) and callout (2nd). These 5 should still be the heaviest of the heavys.

Songs that are performing higher than most with all of the heaviest increases in all MMI Components.

THE CALLOUT DIAGNOSIS HOTAC

MIKE McVAY

President
McVay Media Consulting

The big songs this week ... Miley hits #1 with "Flowers." "Creepin' by Metro Boomin' is next. In the three position is The Kid Laroi with Justin Bieber and the song "Stay." Staying at number four is Sia with "Unstoppable." You might expect this song to be crispy with burn, but it's only at 11.8 on the national chart. That warrants slowing down the rotation, but not dropping it. Following that song by Sia we hit a clump of re-currents starting at number five. Look at what's testing and you'll see, not surprisingly, that the re-currents are testing quite well. That doesn't mean that you don't break-up the predictability of playing the same songs at the same time every day. Be conscious of your rotations.

"Victoria's Secret" by Jax is showing significant growth in the Northeast where it's a Top-5 testing song. Nationally it has equally positive scores with both the younger and older ends of the sample. Coi Leray "Players" is interesting testing better with women 33-39 versus women 25-32. That's not to say the song is unattractive to the younger cell, but rather that it's more attractive to the upper end of the sample group. This song is clearly an ear worm. Following in that category is David Guetta & Bebe Rexha with "I'm Good (Blue)." Between those two tunes ... you should have a battle in your brain for repetitive lyrics that you just can't forget.

The most impressive song showing growth this week, based on the research we're seeing, is Parmalee's "Take My Name." The song comes to the Hot AC chart with high familiarity from the many weeks it was on the country charts. Dua Lipa has a Duo of appearances on the chart. "Levitating" is highly familiar. It's not new, but it performs like a fresh song. She continues to achieve strong acceptance for her duet with Elton John "Cold Heart."

Want to freshen-up your playlist? Morgan Wallen is becoming mainstream in most markets and showing high familiarity. You would think the country artist would show his best test scores in the south, but his song "Last Night" ranked the highest in the Northeast. The South came in next regarding supporting Wallen. "Blind for Love" by the American Authors, Jason Mraz "I Feel Like Dancing", Mimi Webb "Red Flags" and For King and Country "Love Me Like I Am" are newer entries or recent entries into the test sample. For King and Country has a Hotter Mix of the song for stations that want more energy.

Sources included Amazon, Apple, You Tube, Google Play, Napster, Pandora, and Slacker, combined to provide you a pinpoint look at the top streaming songs.

JAX AND NANA

There's a castle's worth of fun things to love about Jax. Here's one more. The real-to-life story about how Ms. Jax's Grand-Jax re-wrote her Cinderella book to be about independent women. And in this iPhone-is clip...Jax recounts, relives and serenades her Nana. Supporting role awards to Meemaw's martini. Click video:

TOM ODELL - "ANOTHER LOVE"

Young Mr. Odell is obviously that Little Miss Lonely is in a bad mood. Tom just SITS THERE as his love lady strips down, screams and trashes the room. His heart is as hard as a week old kaiser roll. This beautifully produced power crescendo was a mega-uber MONSTER hit all over the whole wide world.....a decade ago. But today, "Another Love" is waiting in the wings of the US stages and playlists for it's day to shine. For a timeless and powerful proven smash, click here:

AKINI JING - "PUMP UP"

MMI Global Milestone Alert: Way the heck back in 2018, Akini Jing became the first Chinese artist to enter the US Dance Charts. You may use that faction to dazzle your friends at The Waffle House. Jing built her own musical empire based in Yunnan, China before teaming up with global Asian powerhouse 88Rising. "Pump it Up" will do just that; getting you in shape, and sweating it out over the social pressures of being beautiful. Click here:

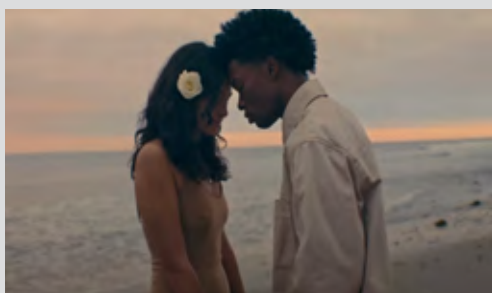

TYLA - "BEEN THINKING"

Way over yonder in Johannesburg, Young Tyla sheltered the pandemic by posting original snippets on social media that caught fire. The South African is now garnering global notoriety with her dedication to her native Afro-beat background and now at the ripe old age of 21 has found a natural niche in blending the rhythms into pure Pop for pretty people. And BTW, "Been Thinking" ain't about you, it's about her and digging what you see. Hint: "You're the best I've never had..." Click here:

PINKPANTHERESS, ICE SPICE - "BOYS A LIAR PT. 2"

In this NY subway-centric clip the Bronx bound train connects to Bath, England and brings together 2 MMI hyper-faves, Pinkpantheress and Ice Spice. There's so much talent in this short clip, it will make you dance on downtown rooftops and see cartoon blue butterflies. What? To figure out what that actually means, click here:

D4VD - "HERE WITH ME"

A tiny bit twisted, D4VD brings us a beachside love with visions of the future with a side served up of desperation and loss. He kinda sorta sees the future but kinda sorta dreads the present without his angel-faced love interest. Little wonder from a guy who brought us 2022's "Romantic Homicide". Let's go swimming and click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
