# MMI WEEK AT A GLANCE

**JOHN SHOMBY**

Partner, Radio's Fresh Eyes, LLC | EVP/GM Studio2Bee Entertainment  
Sr. Chart/Data Analyst MMI Publications

Two new entries into the top 20 and the powers chart this week. They are both in the hip/hop/rap arena which, again, shows that this format is still searching for its mass appeal identity. Female rapper, Kali, enters at #19 with the song "Area Codes" supported by a strong, creative video that ranks second overall and 10th in audio streams. Airplay is extremely minimal ranked way down at #49. Meanwhile, Lil Durk is back with some help from J Cole with "All My Life" which debuts at 16 overall with a solid, early sales and streaming story ranking as the 11th seller, 7th in video and 2nd in audio streams. Being in the 46th position in airplay shows that the panel will probably sit on this for a while.

The biggest upward move of the week was only three places, but it came from one of the format's superstars, Taylor Swift, with "Karma" going 16 to 13. The two drivers for this one are callout ranking 11th and actually airplay as the song rises to 8th. The "Eras" tour helping there. Post Malone's "Chemical" solidifies its spot in the top 15 moving up to 14th this week selling through very well ranked 8th. Airplay is at number 6, so the panel is 100% behind a song that is right down the middle of the format's wheelhouse.

A couple of moves in a top 10 that was pretty stagnant overall. Metro Boomin's "Creepin" featuring The Weeknd and 21 Savage moves 10 to 9 driven by its consistent #1 rank in callout plus top 15 in audio streaming. The melodic "Favorite Song" from Toosii continues to impress rising two spots to number 5 based on some strong streaming numbers – 5th in video and 3rd in audio – and the fact that it's the number one seller this week. Airplay rank has risen three spots to #12 indicating that the panel is considering it as a possible favorite, too.

The remainder of the top 5 has not changed the past two weeks and now into week three. Miguel's "Sure Thing" sits at 4th hitting 9th in video streaming and 3rd in callout. In addition, it is the most played song of the entire 50 this week. Morgan Wallen's crossover smash "Last Night", hangs in at #3 and continues its sales and streaming success ranking 3rd in sales, 10th in video streams and 3rd in audio streams plus 7th in callout. Airplay stays at #10 so a bulk of the panel is playing it in a reasonable rotation. Holding at #2 is "Calm Down" from Rema and Selena Gomez. The song continues with its consistent performance ranking 6th in sales, 3rd in video streams, 11th in audio streams and 8th in callout. Miley Cyrus' "Flowers" remains in the top spot for the 5th straight week with big numbers across the board but remember that callout burn score of 20.4 will, most likely, slow this one down.

With 8 of the top 10 recurrents favoring the pop sound, apparently this is one way the panel keeps some balance in the format in the midst of the hip hop and country.

# ***THE CALLOUT DIAGNOSIS HOTAC***

**MIKE McVAY**

President  
McVay Media Consulting

The respondents showed consistency this week in that the biggest hits remaining positive. One might think that's because there isn't anything new on the horizon that's showing potential, but you'd be wrong. We have several songs testing higher week over week as they begin a glacial climb. The logjam comes from the staying power of the Top-10 songs. High positives. Low burn. Strong familiarity. It's everything program directors look for in songs during both of the two most important rating sweeps.

There are several regionalized #1's across the panel this week. The leaders remain unchanged and are "Stay" The Kid Laroï & Justin Bieber, Metro Boomin with "Creepin'", Miley Cyrus and "Flowers", the song "Bad Habits" by Ed Sheeran, "Unstoppable" from Sia, "Heat Waves" Glass Animals, "Ghost" by Justin Bieber, "I'm Good (Blue)" performed by David Guetta & Bebe Rexha, Nicky Youre "Sunroof" and bringing up the rear of the Top-10 is "Levitating" by Dua Lipa.

Coi Leray and the song "Players" is the highest of the newer tunes testing strong. It's just outside the Top-10. Familiarity is over 90%. Total Positive is at 61.1% and the Burn/Tired Of score is only 10.8% Nationally. Once the tunes in front of it move to Recurrent on more stations, this one should see more positives coming with a greater more frequent spin count.

Miguel with "Sure Thing" is another fresh title testing well with a 60.2 Total Positive score. The tune is 88.2% Familiar. It's testing almost equally with women 25-32 and 33-39. These are the type of metrics that signal a chart-topping title. The song is ranked #13 Nationally, #12 Northeast, #11 in the Midwest, at #15 in the South and #19 in the West.

The song that appears to fall into a regionalized special focus category is "Last Night" by Morgan Wallen. It tests as a huge hit in the South. The song is #5 in that region. Which makes sense since he's a monster artist in the country format arena. #18 in the West. #13 in the Midwest. #23 in the Northeast. The song ranks #14 on the National test panel. The familiarity at the Hot AC format shouldn't surprise anyone as the song received a ton of airplay on country radio and sat at the top of the airplay charts longer than what is the norm for that format.

# SCUTTLEBUTT

**AWKWAFINA &  
DAVID DIGGS**  
THE LITTLE MERMAID 2023

The story was written by Hans Christian Anderson in 1837. Disney made it an iconic animated smash in 1989 and now circles back around with an excellent updated new trip under the sea. This. Is. Just. Awesome.

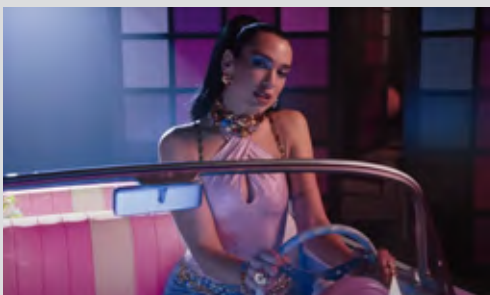

Check out these videos hand-picked by our staff!

### TAYLOR SWIFT FT. ICE SPICE - "KARMA"

All Tay-Tay's songs and videos seem so connected to real life. She swirls through the blurred lines between art and real-time reality like a fairy princess. With all the blah-blah-blah going on about Taylor's love life and everything else...like a pearl in the eternal bottle of green Prell, Ms. Swift slowly turns all the yak into music. BTW, Ice Spice is the Real NY Deal.....the world is Taylor's oyster and we're so lucky to be living in it. Click here:

### DUA LIPA - "DANCE THE NIGHT"

Check the medical news. It's spreading. This summer's condition will be Barbie Fever. Who knew that a German adult toy doll born in 1952 would be alive and well and causing a pink epidemic in 2023. Dua dances the night away in the opening theme of the upcoming tsunami of a movie. Get your pink cars and swimwear and head to your local theater and click here:

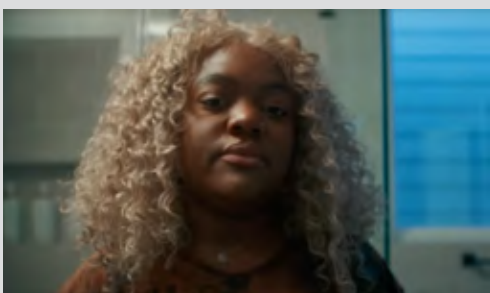

### ONEREPUBLIC - "RUNAWAY"

After screening this video we immediately googled the "ship bar deck" where it said the video was filmed. We digitally located the awesome Marina Bay Sands SkyPark Observation Deck Lounge in Singapore. Plus, this video is packed with Bose products which made us go see if the earbuds were on sale. After we unpaused the pause button we found that all this info was proudly displayed in the vid credits. Oh yeah, we loved the track. It was like Duran Duran on Molly, or so we hear. Click here:

### SZA FT. JUSTIN BIEBER - "SNOOZE"

We're gonna call this one officially a duet. We didn't get the stopwatch out but it sure plays out like one. Bus riding, street strolling, park busking SZA delivers her velvety verses city-side while the Bieb camps out in the cold to chilly regions in a furry coat and a campfire. The song "Snooze" will make you do anything but.....click here:

### LIBIANCA - "PEOPLE"

You may remember Libianca from The Voice 2021. Though she didn't make the finals, her distinct Afro-Beat style and engaging confidence have allowed her to work her way through to an impressive global showing with this track "People". The song and video are dark and captivating. While the multi-voiced rhythmic hook draws you in, you know something is very wrong. This is a magical and powerful track that carries a message that many people need to hear...right now. Click here:

## CHARTS/POWERS:

**1 AIRPLAY** is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

**2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE** predicts listener tune-in/ tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

**3 NATIONAL CALLOUT** contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

**4 STREAMING, AUDIO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

**5 STREAMING, VIDEO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

**6 SALES** is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

## HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

## RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

## ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

## STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

*NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.*
