MMI WEEK AT A GLANCE

JOHN SHOMBY

Partner, Radio's Fresh Eyes, LLC | EVP/GM Studio2Bee Entertainment
Sr. Chart/Data Analyst MMI Publications

Not only is she selling out stadiums all over the world but now Taylor Swift has THREE songs in the top 25 on the Power chart. On the heels of her just released, number one, "Speak Now (Taylor's Version)" album is the highest debut of the week. "I Can See You" is off to a great start entering the chart at number 21. Of course, it's way too early for any callout but this one is in the top 5 for sales and audio streams. With an airplay rank of 45, the panel has not done much with it yet but don't be surprised if it gets some big adds in the next few weeks.

Her current number one Mediabase song "Karma" moves up one from 8th to 7th with top 15 ranks in sales, audio streams and callout. Lots of heavy airplay from the panel as she sits at number two. Finally, the latest single, the 3-year-old "Cruel Summer", rises from 4th to 3rd overall with top 10 numbers in sales, callout and video streams and number 5 with audio streams. The panel's play has increased exponentially over the past several weeks as it's now ranked 6th in that category. Looks like two Taylors in heavy from here.

The newest entry into the top 20 is already a callout surprise. Female rapper Doeschii with help from Kodak Black and "What It Is (Block Boy)" jumps five spots from 22 to 17. The video is a big draw ranking 13th and number 5 in callout tells us that listeners are liking what they're hearing. The panel is starting to believe with airplay going from 38 to 30 this week.

As much as I talked Luke Combs' crossover hit "Fast Car" would not get out of medium, it's looking as if some of the panel is taking it to heavy. The song remains at 6th overall as the number one seller, 4th in audio streams and 13th in callout. The airplay rank hadn't moved for several weeks, until this week, and it's now gone from 20 to 14.

Olivia Rodrigo's "Vampire" proves that this song is no fluke sticking at number 5 again this week. Callout has yet to catch up with the fact that she's top 5 in sales and streaming. Doesn't matter to the panel with the airplay rank rising four spots to 12th this week. If you're not on it, you're missing out on a tune that will get listeners to lean in, for sure.

Rema and Selena Gomez' "Calm Down" moves up one slot to number two this week with strong numbers across the board plus it's the most played song of the 50 surveyed.

Last, but certainly not least, the country music wave has made it to top 40 in the strongest way as Morgan Wallen's "Last Night" goes 2 to 1 this week on the Power chart. 2nd in sales and number one in audio streams, it sits as the 4th most played song this week. Crossed over all the way to the top.

One to watch with the movie opening this week is Nicki Minaj and Ice Spice's "Barbie World" (with some side help from Aqua). The song goes 16 to 12 overall ranking 6th with the video and 11th in audio streams. Airplay is gradually happening, up 32 to 28 this week. Let's see if those numbers change after "Barbie"'s opening weekend.

THE CALLOUT DIAGNOSIS HOTAC

MIKE McVAY

President
McVay Media Consulting

The Hot AC format is most successful when it plays the most mass appeal songs coming from multiple genre and formats. "Creepin'" by Metro Boomin' has the highest testing slot on this weeks panel. Following are Glass Animals "Heat Waves", "Stay" The Kid Laroi & Justin Bieber is hanging in there and Ed Sheeran's tune "Bad Habits" continues to grow. Last Night, the crossover from Country giant Morgan Wallen, maintains at #10 on the National chart. It is #2 in the Midwest and #4 in the South. This artist is reaching a acceptance score that puts him in the Superstar Zone.

The Miley Cyrus song "Flowers" is showing a growing level of Burn at 18%, which should not be concerning even as it is showing some wear on the audience. She also has "Jaded" in this weeks test group. That song has not performed as well as "Flowers" yet, but it shows good familiarity and has a positive score that's slightly better with the older end of the sample. The song "Jaded" is testing the best in the Midwest and South.

There is no bigger artist, any format, than Taylor Swift. The research validates what we're seeing in stadium after stadium. Ms. Swift has three songs on this week's test list. "Cruel Summer" has moved to the top of the three. The other two are "Karma" which is closely followed by the former #1 song on several air play charts "Anti-Hero." None of the three have any noticeable burn. Interestingly, "Cruel Summer" tests slightly better than the other two with the younger end of the sample. Although the scores are within the margin of error. They're very close.

Comparing last week's research results, versus this week's, the top five songs are the same with a slight juggling of position. The Weekend "Die For You" had a 59.2 Total Positive score last week and this week is at 56.8 Total Positive. It's a song that is likely going to have a long lifecycle at Hot AC. "Unholy" by Sam Smith & Kim Petras was the 15th best testing song last week. It's been moved to Recurrent and off the test list this week. Luke Combs "Fast Car" is flat from last week as the 14th best researching title this week. Tracy Chapman has to be enjoying his success with a song that she wrote and recorded.

MARGOT ROBBIE AND RYAN GOSLING ARE REAL PEOPLE

And so Barbie and Ken has arrived in the Barbie Mobile across America. What a media build up this has been. Both Margot and Ryan sat down and spilled about the experience and there are some classic moments worth seeing in the clip. What we found is that both stars are real people and if your try to bend their arms and legs to fit into the chairs they get really mad. So don't....and click below:

Check out these videos hand-picked by our staff!

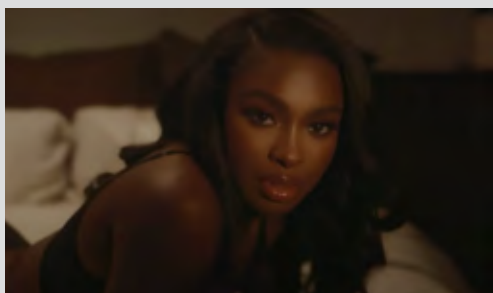

(G) I-DLE - "I DO"

MMI Fave Video of The Week Alert: The 88Rising Camp is so cool and they were first in on the K-Pop tsunami. This amazing video is a mini-sci-fi-teen-movie that has easter egg nods to ET and The Graduate. It's dripping with teen-age energy and romance and is shot beautifully. (G) I-DLE (we don't think you pronounce the () part) is another Korean Girl gathering. In the clip, one has to love the fact that sneezing transforms the protagonist into the next member. So worth a click here:

ZAYN - "LOVE LIKE THIS"

MMI Lots of Kissing Alert: Be advised. This video features lots of "kissing". This lip-action appears in elevators, on motorcycles, beaches, and streets. The lip-locking rating is in and said video is 82%. If you like kissing, this is the video for you. If you are considering kissing, let this be a tutorial. Zayn (formally Zayn Malik of formally One Direction) is British. So I think it's fair to say there's English Kissing, French kissing, and Korean kissing in the video. Global lip work. Wanna soma dis? Pucker up and click here:

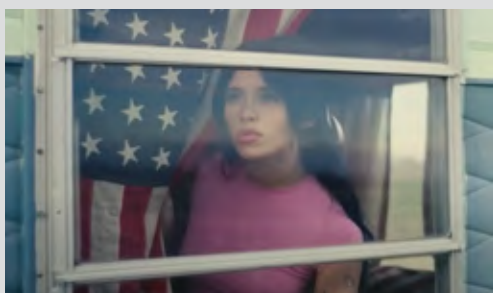

COCO JONES - "ICU"

Oh Lordy me, Lil Coco is all grown up. She's from Lebanon (not the country) right outside of Nashville. You may remember the adorable young songbird from The Disney Channel and Disney Radio but Walt would be spinning in his cryogenic ice pod if he saw this video. The ballad is tailor made for slow dancing and anything else that comes to mind. Click here:

AJR - "THE DJ IS CRYING FOR HELP"

MMI Disclaimer: This video is NOT an editorial on the radio business. Now that that's clear, we love AJR in all their Pop-Alt-Art musical madness. There's a rumor that they convinced their label that this video would really be effective if it were shot in Paris. Must have worked, yo. If you want to enjoy the cool song, visit the Left Bank, and see a tower named Eiffel, try the snails and click here:

NESSA BARRETT - "AMERICAN JESUS"

Absolutely stunning New Jersey Bad Girl Nessa Barrett has found her perfect match in "American Jesus". This motorcycle, trouble-making, cigarette-puffing video sparkles with badness and intrigue and spells out a storyline that is going either nowhere or somewhere funky. Stay till the end to find out if the good guys or the rock and roll cats in black hats win the race. Click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is based on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
