### Country MONDAY MORNING INTEL 7.24.23

THURSDAY MAN

JOHN SHOMBY Owner/CEO Country's Radio Coach, Inc.

This is a great week to be Luke Combs who now has TWO songs on the Power chart top 5. His single "Love You Anyway" moves up one spot from 6th to 5th ranking top 10 in sales, streaming and airplay and 4th in callout. This is not the big one, though. The album cut "Fast Car" is dominating the chart this week and country radio right now ranking number one across the board including being the most played song of the 50 surveyed. Two Lukes in heavy for sure.

Meanwhile, as Morgan Wallen's "Last Night" slips into recurrent mode, he now boasts of two songs in the top 20, still. His newest release, the throwback-sounding "Everything I Love" jumps from 25 to 17 overall powered by top 15 streaming numbers. Callout is just starting to happen as it makes into the top 25 and airplay has definitely picked up, with the bulk of the panel playing it, going from 30 to 23 this week. His "other" album cut "Thinkin' Bout Me" rises from 15th to 12th overall with top 5 numbers in sales and streaming. Callout is not in the mix yet and airplay is minimal at best moving up two from 46 to 44. Regardless, Morgan and Luke are running the show right now.

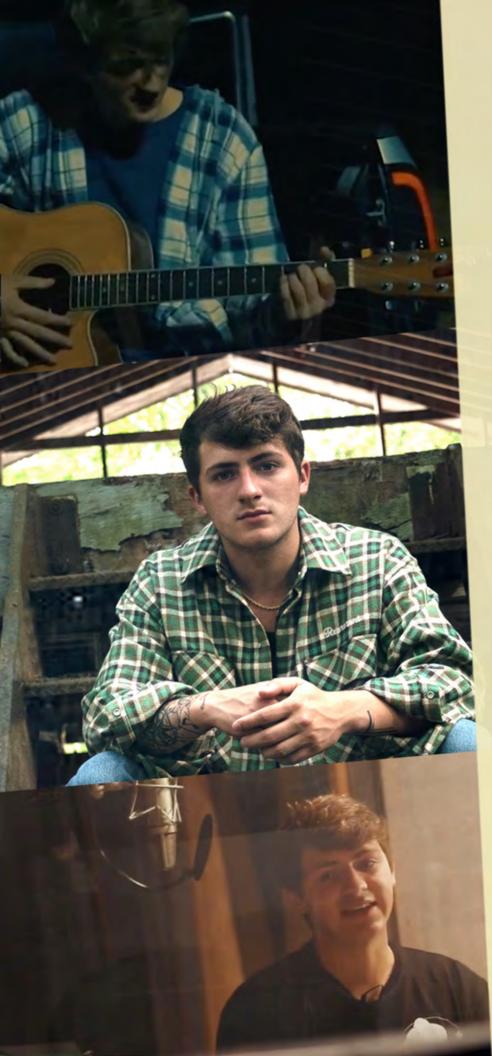

Another new entrant into the top 20 is the other Luke – Bryan – with "But I Got a Beer in My hand" moving from 21 to 16 overall. Sales are really good at this point ranked 13th and, with him touring the country now, the panel is behind it ranking 17th in airplay. We'll see if Luke gets another summer "beer" hit under his belt.

Hardy's country-metal "Truck Bed" enters the top 15 at number 15, up 5 spots. The strength of the tune comes from the top 10 rank in both sales and streaming. The sound may be keeping some stations away from it at this point as airplay sits at a very slow 39th right now. Meanwhile making a big jump into the top 15 is Thomas Rhett's "Angels" going 22 to 14 overall. The panel loves him and the song as it ranks 10th in airplay and, with callout at 16th, the song has a lot more growth potential ahead.

One song to watch that was a "most added" two weeks ago is Warren Zeiders' "Pretty Little Poison". It breaks into the top 30 after only two weeks making it to 27th from 34 last week. No question, the song is in a very light rotation for most at 46th in airplay but his streaming numbers (12th and 13th, respectively) should raise a few eyebrows.

Lainey Wilson's "Watermelon Moonshine" is a new top 10 arrival rising three spots to number 9. She's top 5 in sales, top 10 in streaming and, with callout still in the top 20 at 17th, there are not a lot of negatives for the song. Airplay is slowly rising (20 to 18) so the panel, for the most part, is spinning it in medium. Her music has a history of taking some time to develop and this one appears to be on the same track.

Finally, Jellyroll's "Need a Favor" may be staying at number 3 this week, but his numbers have improved to the point of being top 5 in every category. With a headlining tour coming and now crossing over to Hot AC, watch this stick around for a long time.

## FLETCHER BROWN INTEL

#### CURRENT POSITION: OM/PD WXFL/WLVS FLORENCE-MUSCLE SHOALS

### We know it's been a very eventful past couple of years for you. Please walk us through what's been going on and where you are now.

In April of 2022 I was diagnosed with Synovial Sarcoma, a cancerous tumor found in my left shoulder. I spent the next 8 months travelling back and forth to Houston, TX for treatment, underwent chemo and radiation, and finally surgery in December on my 50th birthday. I have been Cancer free since, and looking back on the that journey I can honestly say I have never been more blessed a day in my life! The support system I had, from the Country Music community to my company, family, and friends was truly humbling.

### You've been in the same market for 26 years – almost unheard of these days. Did you work your way up to PD? What's the main reason for this amazing longevity?

I was in college majoring in Communications and Theatre in 1997 when I started as a part-time weekend board-op, then full-time overnights, then after three years into PM Drive, and I have been here ever since. I took over as PD in 2005, then OM in 2013. I don't believe my climbs were intentional, I worked really hard to be good, and when an opportunity came up, I took it. If you had asked me at any point was that my plan, I would have said no. My plan was to become an actor and director. Radio just worked for me. I love the job and the company I work for, so it always just felt right. I found something I was good it, I enjoyed it, and it gave me a sense of fulfillment.

#### Has streaming becoming a factor for you in your market? If so, why? If not, why not?

I don't believe so, not yet. Streaming is very much a part of our community, especially with the younger demographic. However, we are still able to provide things on a local level that streaming just can't do, and our community really responds to that. Be it live weather coverage during severe weather anytime of the day or night, or showing up at every community event possible, people look to us. And we don't ignore streaming services either. We have our own downloadable app, Amazon skill, and we stream on our website. My Country station has a Spotify account, and each personality has their own playlist for it that our listeners can subscribe to. I believe that streaming is real, it's here, and it's not leaving. People are using it. Join them there, or they will leave you behind. Join them everywhere you possibly can. They should expect to see you there.

#### You work for a locally owned operation. What have you seen as the advantages and disadvantages?

The advantages for me as a programmer is everyone I answer to is in the same building as me, and they trust me to do my job. The GM and I will agree or disagree on certain programming choices, but largely I am allowed to steer this ship without anyone seconding guessing every decision. As OM I grant my PD's the same courtesy. The focus is results. The biggest disadvantage is access. In an industry that is largely built on where you can gain access, we are in a constant battle to stand tall enough on the playing field to be seen as worthy. It's not enough to just be in the business of playing the music, you have to bring as much as you can to the table. That's why every year we submit for industry awards and recognitions and be on reporting chart panels. Even with the success I have had as a Programmer there are invites I still don't get, whether due to marker size or company size. I have to knock on doors, make calls, wave my arms and scream to be heard. Nothing is just given to us, and what we do get is never taken for granted.

### Living in a town with all sorts of music history, tell us about any of the most recent "visitors" in for sessions? Who was the most famous since you've been there?

Muscle Shoals has several truly iconic recording studios, and they are still recording today. I don't typically know when big names come through until after they have come and gone, but in the last few years I have personally taken Phil Vassar, Lindsay Ell, and Neal McCoy on tours of the 2 most iconic studios. Steven Tyler recorded for the first time ever at FAME a few years back. Ann Wilson of Heart recorded at FAME in 2022. Chris Stapelton recorded the Grammy winning song "Cold" at Muscle Shoals Sound Studios in 2021. I am told that in the last year Robert Plant and Wynonna have visited to the studios.

#### I'm sure with your most recent health issues, you had some time to reflect. If you had to choose three people to thank for getting you this point, who would they be and why?

Nick Martin first. My GM. He and Jerry Phillips told me "whatever you need", and Nick made it happen. I expected an amount of support from my company, but for 8 months Nick went above and beyond my highest expectations. It is unbelievable to the lengths to which and this company went on my behalf.

Halley Phillips is Jerry's daughter, our company VP, and one of my best friends on Earth. From the moment I said, "I have Cancer", she drew her sword and shield and stood vigilant by my side. I would never have set up that GoFundMe page that literally saved my life had it not been for her insistence. She stayed on top my treatment and was at my door regularly making sure I had whatever I needed during chemotherapy. She made sure I was taken care of whether I was in the office or not.

Kamara Davis is the wife of one of my best friends, and she is the reason I got into M.D. Anderson in Houston. Having lived through multiple Cancer treatments in her family, she was going to walk with me every step of the way. She called on old friends with ties to the hospital, she held my hand and guided me through my treatment, kept my spirits up, and she and her husband drove the 11 hours to Houston to be there with me the day I went in for surgery.

The fact is the list of names is far too long, and I will never be able to repay all the people who were there for me, but I am certain I would not have made it through without these three.

#### Bonus question - living in Alabama, you are either one or the other. Roll Tide or War Eagle?

My family moved to Alabama in 1986. In 1989 I had my first job at 16 working as a bag boy for Krogers. A man in the dairy department named Rick Creasy asked me, "Who do you go for, Alabama or Auburn?" I replied, "I'm sorry. I don't know what that means." He said, "Football. Alabama or Auburn?" To which I said, "Oh. I don't know. Neither, I guess." Rick put his arm around my shoulder and said, "Come with me. You're an Auburn fan."

I have shouted War Eagle ever since.
