MMI WEEK AT A GLANCE

JOHN SHOMBY

Partner, Radio's Fresh Eyes, LLC | EVP/GM Studio2Bee Entertainment
Sr. Chart/Data Analyst MMI Publications

Looks as if "Barbie" is a not just a box office hit. Musically, the soundtrack is making lots of noise, too, especially on this week's Powers chart. A big move for Dua Lipa's "Dance The Night", from the movie, going 15 all the way up to 8. Top 40 radio has already recognized this one with a steady power-like rank of 8th in airplay again this week. In addition, the song has now reached the top 10 in sales and streaming. This is the sound that Top 40 needs more of so count on this song being around long after the movie.

Another developing monster from the soundtrack features superstar Nicki Minaj and star newbie Ice Spice, with help from Aqua, and the rap hit "Barbie World". This one, in just 5 weeks' time, has made into the top 5 going from 9 to 4 this week. Across the board, the numbers are very impressive in sales, streaming and callout while airplay is growing as the rank moves from 29th to 24th. Don't ignore the high callout burn score (11.9) on this one as it may be one to hit hard quickly and then back away.

The biggest move of the week comes from a BTS member Jung Kook, with some help from female rapper Latto, and "Seven". After a strong debut last week at 26th, this week it vaults into the top 15 at number 13 and all this with only two weeks on the Mediabase chart. It's a number one seller right now and top 10 in streaming. Callout has not caught up with this one, but airplay is already approaching the top 20 at number 21. Another strong pop sound for the format so I would hit this sooner rather than later knowing the huge following BTS has/had.

Finally, the highest debut of the week comes from three stars collaborating for, what appears to have the making of a hit. Travis Scott, Bad Bunny and The Weeknd's "K-Pop" gets a quick start this week at number 19 based on top 5 sales and streaming already. Airplay is also off to a good start at number 32. Keep an eye on this one. Sounds very much like a reaction song.

The country crossovers continue to grow on this chart with a third one making a decent move. Jellyroll's country smash "Need a Favor" goes from 28 to 21 this week featuring top 10 sales, top 15 streaming and, with a rank of 21 at callout, it's something to watch for sure. Airplay is very scattered right now at 43rd out of 50.

Meanwhile, Morgan Wallen's "Last Night" has finally made it to the top spot on the Top 40 Power chart moving up from number 2 last week. It's an across-the-board smash at Top 40 including top 5 with airplay. Luke Combs' "Fast Car" drops one spot to 7th but still has excellent sales and streaming plus airplay is up to number 11 so more stations are giving it more of a shot.

Taylor Swift's "Cruel Summer" dropped to second overall this week but remains top 10 in sales, streams and callout and is this week's most played song on the chart.

THE CALLOUT DIAGNOSIS HOTAC

MIKE McVAY

President
McVay Media Consulting

The research I see weekly from Monday Morning Intel emboldened me in a recent discussion with a friend about the challenges of CHR versus Hot AC today. The question being why Hot AC is performing well in some markets and not in others. The same for CHR. The answer is clear when you look at what the panelists say they love and like. Mass appeal, variety of styles, Current and Recurrent, longevity ... and quick to embrace a song that takes off. That's the benefit of research.

The Top-15 are about the same rank as the last couple weeks. Metro Boomin featuring The Weeknd and 21 Savage continues to sit at the top of the best testing songs "out there." Sia, Glass Animals, The Kid Laroi & Justin Bieber, Ed Sheeran, Miley Cyrus, Morgan Wallen, Dua Lipa, Miguel and Justin Bieber make-up the Top-10. The next five are by the likes of Luke Combs, David Guetta & Bebe Rexha, Nicky Youre, Post Malone, and Benson Boone.

The tunes that are starting to resemble that red flashing HOT light on your dashboard include Miley Cyrus' song "Flowers" at 18.4%, Dua Lipa is next with "Levitating", Nicky Youre "Sunroof", Harry Styles "As It Was" and I'm Good (Blue) by David Guetta & Bebe Rexha at 15.8%. During my PD days ... none of those would have too much burn to play, but I'd have them in a Power Recurrent category. Variety and freshness are almost as important as familiarity.

Benson Boone is one to watch with "In The Stars." This song is showing real potential at Hot AC. The song is the 15th best researching song already. The familiarity score is at 88.4%. Looking across the four regions of the nation, Metro Boomin' has the best testing song. Ed Sheeran's song "Bad Habits" has not performed as well as his previous hits, but it's performance is still one that many other artists have to be envious of and wish for themselves. It is the #2 best testing sing in the Northeast. It comes in down the test list at #9 in the Midwest and West. The South likes the title enough to put it at #6. The Northeast loves themselves some Ed Sheeran.

The titles that are down the test list ... worthy of watching over the next few weeks ... includes some really strong well-known names with excellent songs. These are titles that, because of the logjam at the top of the test panel, will take time to build, but they're all worthy of strong consideration. They are Kelly Clarkson "Mine", Harry Styles "Satellite", "Runaway" by OneRepublic, "Vampire" Olivia Rodrigo, Maroon 5 with "Middle Ground" and Lauren Daigle "Thank God I Do."

PEE-WEE'S "OTHER" BIG RACE

At MMI , we're saddened by the recent loss of genius weirdo Paul Reubens. In his "Post-Pee Wee Years" the madman would pop up in the best of places. In 2006 we were treated to a glance at a character with a Snidely Whiplash-type mustache coaching Jack White on how to beat The Copper Kid in a box car race. Paul , Jack and the rest of the Raconteurs rock us steadily as she goes. Click on video.

Check out these videos hand-picked by our staff!

DOJA CAT - "PAINT THE TOWN RED"

Doja gives 'em Hell in his devilish dive into damnation from our favorite cat woman. The imagery and messaging embedding within these satanic video frames will not point you to Sunday School but there is a message in here somewhere. Doja dances with Dr Death with a little Dionne Warlock back track as together they "Paint The Town Red".

NEWJEANS- "SUPER SHY"

The K-Pop thing is kinda kool. The level of choreography continues to rise and these South Korean babe-ettes are such great dancers. The flood of Korean girl groups has made it competitive but New Jeans and the others continue to conquer US radio and streaming charts. Ok. Enough of that.... so, click here:

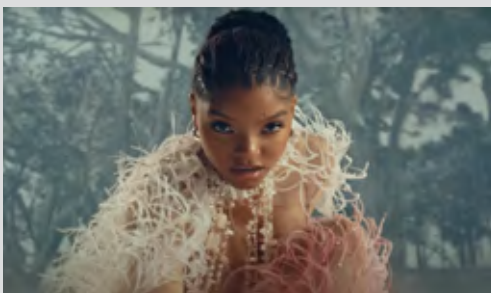

LAUV - "STEAL THE SHOW"

Disney and Pixar teamed up for the animated multi-colored highly pink and purple film "Elemental". It landed with mixed reviews but the overall chatter was way positive and it was determined that 'haters be just making noise'. At MMI, we're easily entertained...and loved it, as we did the Lauv track "Steal The Show". Grab a tub of Orville Reddenbacher and check it out:

DIPLO FT. JESSIE MURPH & POLO G - "HEARTBROKEN"

It's a Southern thing. Mega DJ Producer Diplo is from Tupelo, Mississippi, honey. Vocal badass Jessie Murph is from a small town in Alabama and Polo G is from the South Side of Chicago. From Pulp Fiction to 5 Easy Pieces to a trillion more, big scenes happen in diners. "Heartbroken" set in a diner (duh) checks the boxes. Diplo cooks, Jessie sits, Polo strolls...click here:

HALLE - "ANGEL"

Looks like this mermaid is out of the water as Ms. Bailey, coming off her well-hydrated role of Ariel in the live-action "Little Mermaid" flick is spreading her wings. "Angel" is a stylistic and artistic debut as a solo artist without sis Chloe (the other half of Chloe + Halle Bailey...we know like duh). The soulful, sexy ballad shows us some hints of "future Halle" as an artist and the video has plenty of water references as "tips-of-the-swim-cap" to the role that brought beautiful Ms Bailey to a bigger stage. Click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/ tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is base on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
