MMI WEEK AT A GLANCE

JOHN SHOMBY

Partner, Radio's Fresh Eyes, LLC | EVP/GM Studio2Bee Entertainment
Sr. Chart/Data Analyst MMI Publications

Taylor, Olivia, and "Barbie" are the stars of this week's Powers chart. Taylor Swift, once again, has the number one song with "Cruel Summer" – a sales, streaming and callout giant. Add to that the fact that it's the most played song of the 50 surveyed. Her former number one "Karma" just keeps hanging in there moving back into the top 10 at number 10 overall this week driven by callout at number 10 and airplay at number 9. Keep in mind the higher callout burn scores of both songs as you move forward.

Then there's Olivia Rodrigo who already has a top 5 hit in "Vampire" which sits at number 5 again this week on this chart. Streaming is behind this one with top 5 numbers plus it's the second most played song of the bunch. Now she brings a possible second one, with a lot more tempo, to the chart debuting at number 20. The catchy "Bad Idea, Right?" is off to strong start ranking 6th in sales and 2nd already in audio streams. The panel is well aware of this one with an airplay at 27 in its first week. Perfect song for the format.

"Barbie" is the champ with three tunes now in the top 10. The pivotal song from the movie "What Was I Made For" from Billie Eilish is the big mover of the week rising from 13th to 9th overall. Top 5 sales and streaming and a big increase to 12th in callout, stations are hopping on it quickly as airplay goes from 28 to 23 this week. A powerful ballad from the biggest movie of the year. No brainer here!

Dua Lipa's "Dance the Night" is one of two from the movie in the top 5 at number 3 this week. Strong sales and streaming with decent callout and an airplay rank up to 4th indicates that this is just what the format is needing. A right down the middle pop hit. Finally, at the other end of the spectrum and remaining at number two is Nicki Minaj and Ice Spice with help from Aqua and "Barbie World". Streaming and callout are driving this plus the panel is solidly in place as the airplay jumps from 15 to 11.

Two country crossover possibilities sit comfortably in the top 20. Jellyroll's "Need a Favor" moves up to number 18 as the number three seller and top 20 streams and callout. The panel is nowhere close to convinced yet, though, with airplay at 33 out of 50. Meanwhile, Luke Combs' "Fast Car" HAS crossed over remaining at number 6 this week as the number one seller, 3rd in audio streams and 9th in callout. All of that is giving stations more confidence to play it more often with airplay up to number 8 this week.

One to definitely keep an eye on is female rapper Doja Cat's melodic "Paint The Town Red" which rises to 14th overall. Strong sales and streaming lead the way and the number of stations is growing with airplay up to 19th. With this all happening after only three weeks, it should be enough of a message to that part of the panel being cautious.

THE CALLOUT DIAGNOSIS HOTAC

MIKE McVAY

President
McVay Media Consulting

Labor Day weekend starts this Friday. Looking at those songs that test the best as a Total Favorite, "Creepin'" by Metro Boomin' continues to be a monster performing song. Morgan Wallen has the second most favorite song with "Last Night." "Flowers" by Miley Cyrus continues to do very well. Showing signs that predict a top testing song position is Jely Roll's "Need a Favor." The song is already the #6 researching song for Hot AC and maintains the #2 position among the Country research sample. This artist is for real and his appeal goes far beyond country.

It was an unusual week for the test panel. Metro Boomin' has the best testing song Nationally. The Northeast scored the same song as the best of the titles being researched. The Midwest is all about Luke Combs and the song "Fast Car." Glass Animals song "Heat Waves" is the best tester in the South. Sia is the highest testing song in the west with "Unstoppable." The most familiar songs always show the highest positive or highest negative, but this song by Sia shows no signs of testing poorly. Burn is only at 12.5%.

Because the format is always looking for lightening rod songs that can engage an audience, one to drill down on as you review the research is Miguel and "Sure Thing." The song comes in as the 10th best testing track this week. It is testing slightly better with the younger end of the sample (Women 25-32) by posting a Positive score of 60.3%. The upper end (Women 33-39) tabulated to 55.9% Positive. The Total Positive across both age cells puts the song at 58.1% with women 25-39. The song itself is a strong performer and the sound of the tune fits with Hot AC's overall feeling to be as much like a Top-40 as possible, but with more familiarity and more gold titles.

This week's research panel heard multiple tracks by several artists. Future legends including Taylor Swift, Ed Sheeran, and Harry Styles. The presence of music by well-known names is always a positive, too. Post Malone, The Weeknd, Miley Cyrus, Dua Lipa and Train will give the format a feeling of familiarity and comfort. All of which is a good thing to enable an audience have a Sing-Along moment.

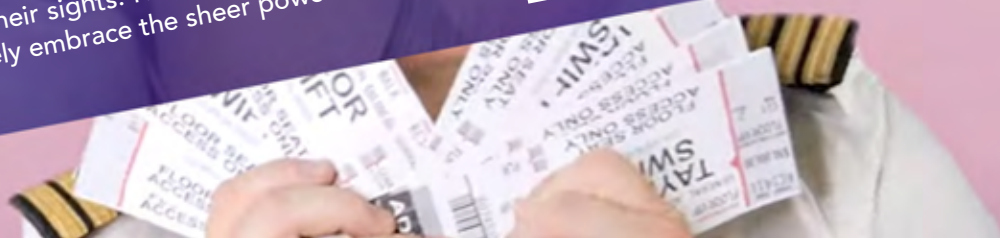

Next up are new songs by the likes of Fifty-Fifty by Cupid. The song is new making the familiarity score low for the song, but it still posted 77.6% ... which is not shabby for a new title. We also saw good research for several newer songs. They included Kelly Clarkson with "Mine", Harry Styles has "Satellite", "Runaway" OneRepublic is catching-on with the research panel, "Vampire" by Olivia Rodrigo, Maroon 5's song "Middle Ground" and Lauren Daigle's tune "Thank God I Do" are slowly growing. Positive test scores are starting to show for "Sail Away" Lovely the Band, "Mona Lisa" by Dominic Fike and "Padam-Padam" by Kylie Minogue.

THE SCHOOL OF HARDNOX GET TAY-TAY TIX!

MMI True Story Alert: We saw this track popping up on the single sonar ping thing and had to know more. Henceforth, we went to visit Uncle Google who told us that Hardnox is a couple of Bay Area Bros that moved to Vegas to find fortune, fame, and matching sailor suits. And Lordy, lightning struck and they have risen to glory as Vegas Strip DJ Favorites. Next goal? Tahoe and Reno are in their sights. Here, our artists tackle the worldwide phenomena and creatively embrace the sheer power of "Taylor Swift Tickets". Click here:

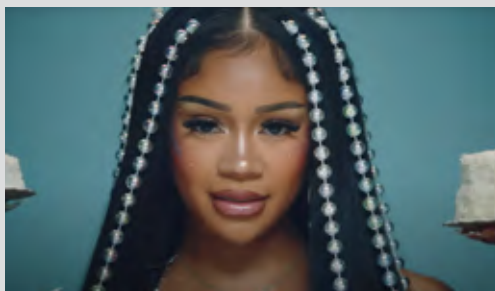

Check out these videos hand-picked by our staff!

MILEY CYRUS - "USED TO BE YOUNG"

Hannah Montana is no more. Crazy tabloid stories make way for other things. Late-night shenanigans clear the path for the couch, a bottle of wine, and Netflix. An all-nighter? Never again. Swinging naked on a wrecking ball? Was that really me? We all grow up and become different people. It's sure as hell happening with Miley and her talent, her voice, her message, AND her audience has grown with her. Facing the camera, directly eye to eye, one shot...she's never appeared so confident. Click here:

SAWEETIE, YG, & TYGA - "BIRTHDAY"

Happy Birthday Saweetie! We were gonna get you a card and a 25-dollar Starbucks gift certificate but we weren't invited to THIS party. If you think back at YOUR best parties with piñatas, pin the tail on the donkey, a juggling clown, maybe even a pony ride, and a double chocolate raspberry cake...well, this ain't it. Saweetie was close to wearing her birthday suit in the following video. Don't bring the kids and click here:

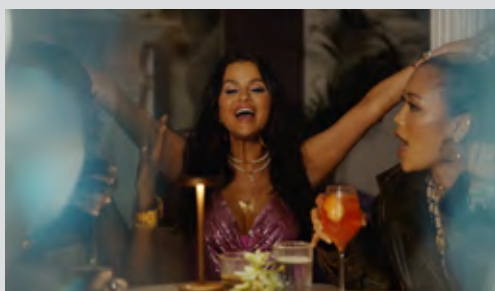

CRASH ADAMS - "SUGAR MOMMY"

Crash Adams is a band and not a he. Crash Adams is a Canadian duo and they are not related to (other Canadian) Bryan Adams. Bryan Adams is a he and not a band yet he has one. Crash Adams became popular during "The Pandey" by posting goofball fun videos laced with original Pop songs. According to this video, said duo Crash Adams likes rich girls. Crash Adams believes you can bribe female police officers by unbuttoning your shirt which is a reversal of a past belief. For further information, click here:

JON BATISTE FT. LIL WAYNE - "UNEASY"

You know how you go into the bookstore at the airport and they have the little tags that say, "What we're reading: Bill Recommends....". So this is kinda that. Because around the MMI World HQ we've been digging on the latest from Grammy-winning super mega ultra talented Jon Batiste. The Album is "World Music Radio". See...it even has Radio in the title. Go find it. Put the needle on the record or do that streaming thing. Thank us later. Click here:

SELENA GOMEZ - "SINGLE SOON"

Only Break-ups In the Building! Selena dances between TV star and Pop Diva like nobody's biz and is out with her besties celebrating freedom from a (obviously) hum-drum relationship. She's leaving Mr. Eeyore a yellow sticky note that she's flying solo and limo dancing while he sulks with his broken heart. See ya later, Gator. Click here:

CHARTS/POWERS:

1 AIRPLAY is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

3 NATIONAL CALLOUT contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

4 STREAMING, AUDIO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

5 STREAMING, VIDEO contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

6 SALES is based on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.
