Last week, we were cheering the fact that the ladies of Top 40 pop were starting to take over. Let's add one more unlikely pop-sounding song to the mix from a female RAP superstar. Already in the top 5 with "Barbie World", her collaboration with VMA New Artist winner, Ice Spice, Nicki Minaj has the highest debut of the week at number 22 with the very melodic "Last Time I Saw You". The song is about 10% rap and 90% Nicki's vocals, and she really pulls it off. It's already the number one seller plus 10th in audio streams. Some early panel believers get the song an airplay rank of 38. By the way, the "Barbie World" tune is still in the top 5 dropping two to 4th overall but is still a giant with streaming and callout and now it's top 5 with airplay ranking 5th in that category. Ms. Minaj may have a hot fall.

A second lady of rap rises to the number two spot overall from 4th. Doja Cat's highly reactive "Paint the Town Red" is the number one streaming song this week, 2nd in sales and 6th in callout. Airplay is approaching the power rotation level moving up in rank from 14th to 11th. No question this is big.

The other ladies stay consistent starting with Olivia Rodrigo and two songs still in the top 20 from her just-released "Guts" album. Her former number one "Vampire" stays at number 6 overall on the Powers chart and sitting at 5th in streaming. Airplay is still strong at number 3. Her latest single "bad idea, right?" remains in the 20th spot ranking top 15 in streams just entering the top 20 in airplay at number 18. Selena Gomez also has two songs in the top 20. Her collab with Rema "Calm Down", after 44 weeks on the chart, is still in the Powers top 10 at 7th. Airplay and callout are keeping this alive both at number 7 this week. Meanwhile, her latest release "Single Soon" after a big debut last week drops three spots to number 18 ranking top 20 in sales and streams and up to 14th in airplay marking it as a solid medium rotation tune.

Miley Cyrus' "Used to Be Young" stays at number 10 after her amazing chart debut last week. The song is the 3rd top seller, 11th in audio streams and up 4 spots to 13 with airplay. The panel is taking this home quickly.

Our VMA 8-time winner, Taylor Swift, also has two in the top 20. Her previous number one "Karma" is up one to 16th based on strong callout (11th) and airplay (15th). The crowned "hit of summer 2023", the aptly titled "Cruel Summer", remains in the top spot again this week rising to 6th in sales, 3rd in audio streams and 3rd in callout. In addition, it's the second most played song of the 50 surveyed.

There's a new entry into the top 5, after 19 weeks, country crossover hit "Fast Car" from Luke Combs goes 7 to 5 this week. 4th in sales and streaming and 8th in callout, the last holdouts are in and playing this one often with an airplay rank of 6th. Luke Combs a top 40 hitmaker. Who knew?

Finally, the two other "Barbie" soundtrack hits continue to flourish. Billie Eilish's "What Was I Made For?" sticks in the 9th spot with top 10 sales and streams and top 5 callout. Airplay still lags at 23rd or this song would be higher. The listeners have given the thumbs up. Now it's time for the panel to do the same.

Dua Lipa's "Dance the Night" remains at 3rd overall with strong across the board numbers including being the most played song of the week.

The logo for 'Monday Morning Intel' is centered at the top. It consists of three stacked rectangular boxes. The top box is red with the word 'MONDAY' in white, bold, sans-serif capital letters. The middle box is white with the word 'MORNING' in black, bold, sans-serif capital letters. The bottom box is red with the word 'INTEL' in white, bold, sans-serif capital letters. The background of the entire image is a dark blue with a pattern of colorful, curved lines and dots in shades of teal, red, and yellow, creating a sense of motion and data flow.

# ***THE CALLOUT DIAGNOSIS HOTAC***

**MIKE McVAY**

President  
McVay Media Consulting

The fall survey has begun. The time to freshen your currents and re-sort your library is now. Remember that the fall sweep ends in early December. Once you hit Thanksgiving, many stations start to filter in Christmas music, or they switch to 100% Christmas music. Meaning that you may find yourself with a few crispy tunes on your playlist if you don't start looking ahead now. It also means pushing some of the Power Currents off to Recurrent to open up your rotations.

The Weeknd "Die for You" has a 50+% Positive score. It looks to be headed for Top-10 researching at the Hot AC Format. Seeing early research on early songs "Single Soon" by Selena Gomez, Jung Kook f/Latto with "Seven", Shinedown with "A Symptom of Being Human" and Dominic Fike with "Mona Lisa." These titles are still new and lack familiarity, but they show potential.

Lauren Daigle, having seen great success at the CCM format, is garnering attention with "Thank God I Do." It's nowhere near a Power category with only a 40% Positive score, but it is 75.6% Familiar. Market after-market I see strong ratings for stations that play her music. When is the last time anyone played a current from Kylie Minogue? "Padam Padam" is slowly gaining familiarity and continues to show positives making it worthy of a listen and consideration. Tertiary would be the right category for it based on this weeks research.

The "Biggies" on the National tab continues to include "Creepin'" by Metro Boomin, "Unstoppable" by Sia, "Heatwaves by Glass Animals", Miley Cyrus with "Flowers", Ed Sheeran's song "Bad Habits" and "Shivers", "Stay" by The Kid Laro and Justin Bieber, "Last Night" by the newly head shaved Morgan Wallen, Justin Bieber has "Ghost" testing well and "I'm Good (Blue)" by David Guetta and Bebe Rexha just won't stop testing as a Power song.

Note that Jelly Roll's song "Need a Favor" is shaking up the music world. A song, and artist like Jelly Roll, wasn't expected to become a Country hit, let alone crossover to CHR and now Hot AC. It's a genuine hit and testing very well with its' biggest scores coming in the Midwest and South. I'm not sure if it's the singer's voice that makes this song so memorable or if it's the lyrics and the story itself. It is certainly a familiar situation that is supported by the experiences of many. Thus, a strong test score for Jelly Roll. Let the survey begin.

# OLIVIA SPILLS HER "GUTS" ON TODAY!

Ok, we got up early for this. When we heard that Ms. Rodrigo was doing the "Today Shoe Citi Concert" thingy we pressed play on the remote and coffee maker. We love the quick insight into the new album, the feeling of following up a monster debut and the screams of adoring fans...which you can count us in as...with...um...to be with...whatever. Click on video.

Check out these videos hand-picked by our staff!

### OLIVIA RODRIGO - "GET HIM BACK"

Hands? Who Loves Olivia? We do. And for a Gen-Zer who broke worldwide with an emotional ballad deluxe, the girl sure knows how to sling tempo and attitude double XL. "Get Him Back" is a brilliant tongue-in-cheek lyric about mixed emotions and the sweet taste of revenge. Click here:

### TATE MCRAE - "GREEDY"

**MMI History Alert:** For the first time, an extremely sexy video has been made co-starring a Zamboni. Magnificent Ms. McCrae makes the most of machinery and melts the ice with high-octane hockey moves in the locker room. This video features ice cold red hot 'what the puck choreography. Suit up and click here:

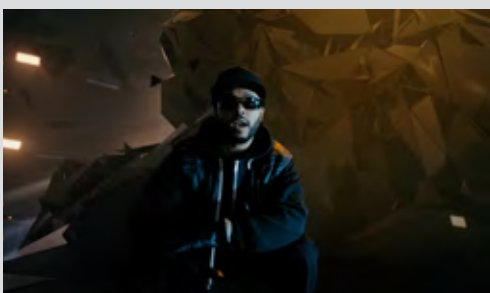

### J BALVIN, USHER, DJ KHALED - "DIENTES"

**MMI Spanish Lesson Alert:** "Dientes" is español for "Teeth" and in this track, our musical dentist, J. Balvin repeats multiple requests for us to show them. So open up and enjoy the way cool arcade-land mini-movie that features multiple demos dancing to a groove that dominates world charts. Click here:

### NICKI MINAJ - "LAST TIME I SAW YOU" 2023 VMA'S

The ever visually bountiful VMA's fell on the tail end of New York's famed Fashion Week. So we couldn't help but feature this stellar Nicki-Clip after we read "she appeared dressed in what appeared to be a flat tire that had been driven to the closest gas station before stripping to her signature undies".....wow. Nicki Minaj never misses a chance to mesmerize an audience and again doesn't disappoint. Stick around til she launches into preaching deluxe. Click here:

### DIDDY AND FRIENDS - "ANOTHER ONE OF ME"

**MMI Let's Play A Game Alert:** For fifty clams, name all the names he's gone by in order backwards: Let's try....Diddy, Love, Puffy, P. Diddy, Puff Daddy, Sean Combs.....did we win? Diddy never goes away. He emerges. And when he does it's always something. This time teamed with The WeekND, 21 Savage, and French Montana, the man with many names is back and delivers yet "Another One Of Me". Click here:

## CHARTS/POWERS:

**1 AIRPLAY** is calculated by Trailing 14 Days of radio airplay on the Key Influencer radio stations – Top 157 radio stations by Average Quarter Hour. Charts are weighted using currently assigned points in Mediabase...100% point value for Morning Drive, 90% for Afternoon Drive, 80% for Mid-days, 70% for nights, 50% for Overnights.

**2 AIRSCORE: THE AIRPLAY INTEL 3.0 RETENTION SCORE** predicts listener tune-in/tune-out on song play by contemplating the trend over time relationship between local and national airplay, local/regional callout, and audio and video streaming.

**3 NATIONAL CALLOUT** contemplates more than 1,000 respondents weekly in four regions geographically equivalent over the trailing 14 days of calls.

**4 STREAMING, AUDIO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

**5 STREAMING, VIDEO** contemplates trailing 14 days of all streaming. Songs with insufficient data are designated with an "x". These songs do not affect the Total Performance Score in any way.

**6 SALES** is based on 14 days trailing results. Songs with insufficient data are designated as PENDING. Pending songs do not affect Total Performance Score in any way.

## HOT ZONE / DEVELOPING

All five components listed above are contemplated. Songs moving up and increasing significantly in TWO or more categories are designated in the Hot Zone. Other new releases are designated as Developing.

## RECURRENTS

Recurrents are a simple calculation of songs that have trended downward and no longer qualify for Current status. Trailing 14 days are contemplated, along with 6 weeks of Retention Data, and are computed on a 50/50 level of importance.

## ACTION

Songs that are testing either in Callout or in Retention significantly higher than current Airplay rank. These songs are considered UNDEREXPOSED and deserving generally of greater airplay.

## STREAMING AUDIO, VIDEO AND SALES

Streaming Audio and Video, and Sales, are based on trailing 14 days data. All major streaming services are used wherever possible, along with sales.

*NOTE: Hot AC Callout information is provided as stand-alone information. This data does not factor into the main chart rankings in any way.*
